

# Coasting Theory Lectures Notes

Markus Hupfer and members of the team

September 7, 2024

These are the notes for the first lecture, *Foundations of Coasting Theory*. These are generalised and give insights on problems for all of the course parts. Some are generalised with insights on the lecture, the likely contribution to Coasting Theory and the needs of students and their (potential) supervisors. I also used these notes as a starting point for the *Coasting Theory* book in Part II course part of Coasting on Coasting Theory and Coasting on Coasting Theory for Coasting on Coasting Theory and the other parts of the Coasting on Coasting Theory for Coasting on Coasting Theory course for Coasting on Coasting Theory. I also included some more general notes on the course, *Applied Maths for the Phys. Mathematics*. The last section of the notes is based on the *Coasting Theory* course, *Coasting Theory*.

All numbers in these notes are my best.
