Management 11th Edition:

Essentials of Management -- 11th Ed Andrew DuBrin, 2020-05 Essentials of Management is written for newcomers to the field of management and for experienced managers seeking updated information and a review of the fundamentals. It is also written for the many professionals and technical people who work closely with managers and who take their turn at performing some management work. An example would be the member of a cross functional team who is expected to have the perspective of a general manager. Based on extensive research about curriculum needs, the design of Essentials of Management addresses itself to the needs of introductory management courses and supervision courses offered in educational settings. Previous editions of the text were used in the study of management in colleges and universities as well as in career schools in such diverse programs as hospitality and tourism management and nursing. The book can also be used as a basic resource for management courses that rely heavily on lecture notes, PowerPoint presentations and videos rather than an encyclopedia like text.
