*Curriculum Studies Handbook - The Next Moment* Erik Malewski, 2009-09-10 What comes after the reconceptualization of curriculum studies What is the contribution of the next wave of curriculum scholars Comprehensive and on the cutting edge this Handbook speaks to these questions and extends the conversation on present and future directions in curriculum studies through the work of twenty four newer scholars who explore each in their own unique ways the present moment in curriculum studies To contextualize the work of this up and coming generation each chapter is paired with a shorter response by a well known scholar in the field provoking an intra inter generational exchange that illuminates both historical trajectories and upcoming moments From theorizing at the crossroads of feminist thought and post colonialism to new perspectives that include critical race currere queer southern studies Black feminist cultural analysis post structural policy studies spiritual ecology and East West international philosophies present and future directions in the U S American field are revealed

*Body Knowledge and Curriculum* Stephanie Springgay, 2008 Body Knowledge and Curriculum examines student understandings of body knowledge in the context of creating and interrogating visual art and culture It illustrates a six month research study conducted in an alternative secondary school in a large urban city During the research project students created a number of visual art works using a diversity of material explorations as a means to think through the body as a process of exchange and as a bodied encounter The book engages with feminist theories of touch and inter embodiment questioning the materiality and lived experiences of the body in knowledge production in order to provoke different ways of theorizing self other relations in teaching and learning This volume is important because it explores the ways in which youth understand the complex textured and often contradictory discourses of body knowledge and seeks to intentionally create alternative pedagogical and curricular practices to ones that subscribe to a healthy body model
