Waller, 2020-04-15 This book is the definitive resource for understanding the phenomena and process of personal brand management as it becomes increasingly valued in a global economy. By providing a research-based theoretical framework, the author distills the concept of personal branding as it is applicable to individuals throughout all stages of career development as well as across industries and disciplines. Extensively researched with numerous case studies, this book clearly outlines the strategic process of evaluating the economic value of a personal brand to manage and scale it accordingly. The author, an expert in the field of personal brand strategy and management, argues that a business is what a person or organization does, but the brand is what people expect from that person or organization. The two must align, and the book's conceptual framework explains the theory and practice behind personal branding to accomplish this synergism. The consequence of the digital age is unprecedented visibility for individuals and businesses. As they engage with one another in more and more virtual spaces, the need for understanding and managing the evolving complexity of this personal engagement is an economic reality. For this reason, the framework in this title provides insight and perspective on all phases of a brand in its recursive life cycle, both on and offline. By providing clarity and structure to the topic as well as practical theory for its application, this title is the ultimate primer on personal branding in theory and practice. B2B Brand Management Philip Kotler, Waldemar

Pfoertsch, 2006-09-22 As products become increasingly similar, companies are turning to branding as a way to create a preference for their offerings. Branding has been the essential factor in the success of well-known consumer goods such as Coca-Cola, McDonald's, Kodak, and Mercedes. Now it is time for more industrial companies to start using branding in a sophisticated way. Some industrial companies have led the way: Caterpillar, DuPont, Siemens, GE. But industrial companies must understand that branding goes far beyond building names for a set of offerings. Branding is about promising that the company's offering will create and deliver a certain level of performance. The promise behind the brand becomes the

motivating force for all the activities of the company and its partners Our book is one of the first to probe deeply into the art and science of branding industrial products We provide the concepts the theory and dozens of cases illustrating the successful branding of industrial goods **Branding in Action** Graham Hankinson, Philippa Cowking, 1993 Strategic Brand Management Kevin Lane Keller, 2003 Written by today's leading authority in brand management and incorporating the latest industry thinking and developments this exploration of brands brand equity and strategic brand management combines a comprehensive theoretical foundation with numerous techniques and practical insights for making better day to day and long term brand decisions and thus improving the long term profitability of specific brand strategies Finely focused on how to and why throughout it provides specific tactical guidelines for planning building measuring and managing brand equity It includes numerous examples on virtually every topic and over 100 Branding Briefs that identify successful and unsuccessful brands and explain why they have been so For industry professionals from brand managers to chief marketing officers

Brands Laid Bare Kevin Ford, 2005-05-05 The way we relate to brands has changed Once brand management was about doing things to people and choices were made by brand managers not consumers Now the focus has shifted towards the customer empowering them to make choices and treating them as individuals rather than an amorphous mass A consequence of this is increased interest in understanding people as a foundation for brand management And this is where market research can come in By drawing on market research to understand consumers marketers can better understand how to manage their brand Exploring a spectrum of 12 customer needs and drawing on first hand research evidence Kevin Ford provides a proven framework for understanding what people are really looking for from a brand and delivering it
