

# CASE STUDY: UNITED STATES OF AMERICA

## Global State of Democracy 2023 Report

*Maria Angeles Morales Gonzalez*

Elections act as the fundamental check on power. They allow citizens to have control over decision making by empowering voters to hold representatives accountable for their actions. They further serve as popular assessments of incumbents' terms when re-election is possible. In congressional elections at the federal and state level, they also determine voters' agreement with the majority party's performance in law-making and in establishing the foundations for policy-building.

The power of elections was seen clearly in the aftermath of the overturning of *Roe v. Wade*. During the 2022 mid-term elections, voters rejected further restrictions on abortion access, even in conservative-leaning states (Stracqualursi, Cole and Le Blanc 2022; *New York Times* 2022). In a context where the majority of Americans consider themselves to be "pro-choice" and in which access to abortion medication through a prescription is supported by nearly two-thirds of Americans, there is an evident disconnect between voters and lawmakers (Younis 2023; Oledipo 2023; Gallup 2023; Stracqualursi, Cole and Le Blanc 2022). Recently, Ohioans rejected an initiative to increase the threshold of support needed to amend the state constitution, which, had it been passed, would have thwarted the approval of an amendment to enshrine abortion protections to be voted on in November 2023 (Carr Smyth and Hendrickson 2023).

Yet the ability of elections to act as effective countervailing institutions (CIs) is obstructed by mechanisms like the electoral college, which skew the principle of 'one person, one vote', or phenomena such as voter suppression and disinformation, which can result in the manipulation of popular will.

In light of the upcoming presidential and congressional elections in November 2024, it is critical to examine the hurdles that get in the way of elections' success as a CI in the USA.
