Modern Architecture and its Representation in Colonial Eritrea Sean Anderson,2016-03-03 Modern Architecture and its Representation in Colonial Eritrea offers a critical assessment of architecture and urbanism constructed in Eritrea during the Italian colonial period spanning from 1890 1941 Drawing together imperial projects modernist aesthetics and fascist motives the book examines how the merger of these three significant influences yielded a complex built environment that served to emulate if not redefine Italian colonial pursuits As Italy s colonia primogenita or first born colony Eritrea and its capital Asmara not only bore witness to the emergence of politicized interiors and international expositions the colony became a vehicle that polarized issues of race and gender Exploring discourses of modernity in Africa this book moves between histories of architecture urbanism literature and media to describe how Eritrea and Asmara became a crucial fulcrum for Italy s ill fated pursuits in Ethiopia and other neighboring countries Consequently modern architecture inscribed Eritrean subjectivities while redefining technologies that affected constructions of the colonial interior Modern Architecture and its Representation in Colonial Eritrea demonstrates how architecture in Asmara reshaped the creation and reception of Italian East Africa

shows how Galileo's pupils, friends and critics shaped the Galileo myth for centuries to come and brings together in one volume the primary sources needed to understand the legendary scientist in his time *Report, with Accompanying Papers* Dante Society of America, 1913 General Catalogue of Printed Books British Museum. Department of Printed Books, 1931 *The Architecture of Modern Italy* Terry Kirk, 2005-06-02 Modern Italy may sound like an oxymoron. For Western civilization Italian culture represents the classical past and the continuity of canonical tradition while modernity is understood in contrary terms of rupture and rapid innovation. Charting the evolution of a culture renowned for its historical past into the 10 modern era challenges our understanding of both the resilience of tradition and the elasticity of modernity. We have a tendency when imagining Italy to look to a rather distant and definitely premodern setting. The ancient forum, medieval cloisters, baroque piazzas and papal palaces constitute our ideal itinerary of Italian civilization. The Campo di Siena, Saint Peter's, all of Venice and San Gimignano satisfy us with their seemingly unbroken panoramas onto historical moments untouched by time, but elsewhere modern intrusions alter and obstruct the view to the landscapes of our expectations. As a seasonal tourist or seasoned historian, we edit the encroachments time and change have wrought on our image of Italy. The learning of history is always a complex task, one that in the Italian environment is complicated by the changes wrought everywhere over the past 250 years. Culture on the peninsula continues to evolve with characteristic vibrancy. Italy is not a museum. To think of it as such, as a disorganized yet phenomenally rich museum unchanging in its exhibits, is to misunderstand the nature of the Italian cultural condition and the writing of history itself. *Catalogue of Printed Books* British Museum.
