The Teaching of Instrumental Music Richard J. Colwell, Michael P. Hewitt, 2017-10-12 The Teaching of Instrumental Music Fifth Edition introduces music education majors to basic instrumental pedagogy for the instruments and ensembles commonly found in the elementary and secondary curricula. It focuses on the core competencies required for teacher certification in instrumental music with the pervasive philosophy to assist teachers as they develop an instrumental music program based on understanding and respecting all types of music. Parts I and II focus on essential issues for a successful instrumental program, presenting first the history and foundations followed by effective strategies in administrative tasks and classroom teaching. Parts III, IV, and V are devoted to the skills and techniques of woodwind, brass, and percussion and string instruments. In all, *The Teaching of Instrumental Music* is the complete reference for the beginning instrumental teacher commonly retained in a student's professional library for its unique and comprehensive coverage. **NEW TO THIS EDITION** Revision and updating of curriculum developments such as coordinating State Department of Education student learning objectives with the recent Every Student Succeeds Act (ESSA).
