presented a formidable challenge for manufacturers and retailers Consumer durables required large markets Most involved significant research and development costs Some such as the telephone radio and car were dependent on complementary investments in infrastructure All required intensive marketing usually including expensive advertising in national newspapers and magazines while some also needed mass production methods and output volumes to make them affordable to a mass market This study charts the pioneering efforts of entrepreneurs many of whom though once household names are now largely forgotten to provide consumer durables at a price affordable to a mass market and to persuade a sometimes reluctant public to embrace the new products and the consumer credit that their purchase required In doing so Scott shows that contrary to much received wisdom there was a consumer durables revolution in inter war Britain at least for certain highly prioritised goods *Film Composers Guide* ,1996 *The Hollywood Reporter* ,1990 **The American Music Lover** ,1939
