Science Applications International Corporation in association with various U S intelligence agencies participated in this  
program Using the remote viewing method research focused on understanding the applicability and nature of psi in general  
but mostly upon informational psi Volume 1 Remote Viewing 1972 1984 and Volume 2 Remote Viewing 1985 1995 include all  
aspects of RV including laboratory trials and several operational results Volume 3 focuses on laboratory investigations on  
psychokinesis Volume 4 Operational Remote Viewing Government Memorandums and Reports includes an analysis of the  
applied remote viewing program and a selection of documents that provide a narrative on the behind the scenes activities of  
Star Gate In a total of 504 separate missions from 1972 to 1995 remote viewing produced actionable intelligence prompting  
89% of the customers to return with additional missions The Star Gate data indicate that informational psi is a scientifically  
valid phenomenon These data have led to the development of a physics and neuroscience based testable model for the  
underlying mechanism which considers informational psi as a normal albeit atypical phenomenon The Star Gate data found  
insufficient evidence to support the causal psi psychokinesis hypothesis     *Engineering Drawing (Plane and Solid Gemoetry)*
