## **Preventive Engagement Council On Foreign Relations:**

**Preventive Engagement** Paul B. Stares,2017-12-19 The United States faces an increasingly turbulent world The risk of violent conflict and other threats to international order presents a vexing dilemma should the United States remain the principal guarantor of global peace and security with all its considerable commitments and potential pitfalls not least new and costly military entanglements that over time diminish its capacity and commitment to play this vital role or alternatively should it pull back from the world in the interests of conserving U S power but at the possible cost of even greater threats emerging in the future Paul B Stares proposes an innovative and timely strategy preventive engagement to resolve America s predicament This approach entails pursuing three complementary courses of action promoting policies known to lessen the risk of violent conflict over the long term anticipating and averting those crises likely to lead to costly military commitments in the medium term and managing ongoing conflicts in the short term before they escalate further and exert pressure on the United States to intervene In each of these efforts forging preventive partnerships with a variety of international actors including the United Nations regional organizations nongovernmental organizations and the business community is essential The need to think and act ahead that lies at the heart of a preventive engagement strategy requires the United States to become less shortsighted and reactive Drawing on successful strategies in other areas Preventive Engagement provides a detailed and comprehensive blueprint for the United States to shape the future and reduce the potential dangers ahead

Annual Report of the Council on Foreign Relations Council on Foreign Relations,1994 **Palestine in EU and Russian Foreign Policy** Malath Alagha,2016-10-04 The establishment of a Palestinian state has long been a strategic objective of EU and Russian foreign policy in the Middle East However over a decade after the creation of the road map the establishment of an independent Palestinian state has still not been achieved Palestine in EU and Russian Foreign Policy uses the school of constructivism to provide a new understanding of EU and Russian foreign policy It explores the failure of these global actors to speed up the process of establishing a Palestinian state despite this being a strategic objective and top priority of their involvement in the Middle East peace process The book then analyses the role of identity and self other perception in the making of EU and Russian foreign policy towards the Middle East peace process It is argued that Palestinian statehood provides a telling empirical example of how and to what extent the search for global actorness as a matter of international identity informs foreign policy making by global actors The book then proceeds to discuss why the EU and Russia are so eager to be involved in initiating a peace settlement Offering a new understanding of foreign policy making by global players in Middle Eastern politics this book will appeal to students scholars and policymakers working in International Relations and

H. Liotta, 2008-01-23 Put quite simply the twin impacts of globalization and environmental degradation pose new security dangers and concerns In this new work on global security thinking 91 authors from five continents and many disciplines from science and practice assess the worldwide reassessment of the meaning of security triggered by the end of the Cold War and globalization as well as the multifarious impacts of global environmental change in the early 21st century      Preventing Violent Conflicts Peter Wallensteen, 1998      **EU Enlargement and the Transatlantic Alliance** Sven Biscop, Johan Lembke, 2008 What is the interplay between EU enlargement and a fluctuating transatlantic security partnership Will the accession of new EU members reinforce this partnership or instead increase the EU's assertiveness as an independent foreign policy actor The authors of *EU Enlargement and Transatlantic Security* find answers in an examination of broader EU security strategies the foreign and security policies of the newer and potential EU members and changing US priorities Their perceptive analysis offers a sharp lens through which to understand the current and future state of transatlantic security      **Annual Report** Council on Foreign Relations, 2000      **Studies Department 1997 Winter/Spring Program** Council on Foreign Relations, 1997      *Strategic Digest*, 2004      **Annual Report** Century Foundation, 1998      **International Affairs**, 2003      *Transatlantic Tug-of-war* Ingo Peters, 2006 Within the rhetoric on transatlantic relations the consensus prevails that in order to cope with global challenges constructive engagement and effective cooperation between the United States and its European partners is required However regarding actual policy making particularly subsequent to 9/11 and the war in Iraq conflicting agendas and policies on both sides of the Atlantic are easily discernible The articles in this book deal with various societal political and security issues constituting frame and context of the transatlantic relationship in order to explain the contradiction between declarations and deeds and to evaluate the chances for narrowing the policy gap      **Contemporary International Relations**, 2007      *Paths to Regionalisation* Sophie Boisseau Du Rocher, Bertrand Fort, 2005 The aim of this book is to explain the different experiences in region building in Europe and East the two regions of the world that are making major contributions to the experience and theory of region building Europe and East Asia have evolved in different ways with different logics and mechanisms but it does not mean they do not have common interests or things to learn from one another This book seeks to contribute to a better understanding of the experiences and challenges in both regions and to stimulate a much needed reflection of the benefits of regions to harness globalisation      The Brookings Review, 1996
