

Guide for Writing Project Proposals

This is a summary of how to write good, concise proposals for course projects. The focus of this summary is on programming or implementation projects, but the general ideas can be applied to most proposals. The recommended lengths of sections are given assuming a document length of 2 to 5 pages. Use appropriate scaling for longer proposal documents.

 - Why is this problem interesting?
 - When and why does the problem occur?
 - Is the problem already solved? What is done now?
