Marciniak,2013-03-20 Introduction by the Pleiadians We call ourselves Pleiadians And by way of an introduction let us say that we are journeyers through time and multiple dimensions We are a curious group intent upon exploring the nooks and crannies of existence traipsing over cosmic hill and dale in search of answers to the majestic mysteries of life All of existence is a vast web of energy and there are seemingly endless and dazzling directions connections events and entertaining diversions to explore However at present we are most earnestly focused on a specific place and time Earth from the year 1987 through 2012 and after It appears that during this period this location safeguards the probability of a triumphant achievement where for a short while some of the majestic mysteries of life are realized and revealed We are here to observe and participate in the greatness of this event Our perspectives are multidimensional in range and scope for we are a wondrous collective of conscious energies who are intentionally expanding our beliefs about the nature of existence throughout many points in time The heavens are filled with life and in our search for knowledge and greater understanding of who we are our journey has led us to you Earth is currently experiencing a tumultuous transformation of consciousness the likes of which you have no recorded historical precedent for Yet within the corridors of human cellular memory many images stir with a hint of strange familiarity You are deeply immersed in a time of critical change humanity is poised at the threshold of a new understanding of cosmic power Naturally many of us wonder what you will do with this knowledge In other epochs of time the nature of this power has been misunderstood and subsequently misused inevitably leading the way to your self destruction Nevertheless the immense cycles of living and seasons of learning continue to patiently offer the same lessons for while life may appear to be destroyed consciousness is ever enduring and only changed in form Humanity is rapidly approaching the edge of the great cosmic cliffs of consciousness What you do now the choices you make will determine a course of experience more complex and astounding than you can currently imagine The dawning of a new revolution in consciousness is at hand You cannot escape the necessity to manage this power now or ever In light of our adventurous spirit we are here to share our perspectives on your rapidly changing lives and to offer our support as well as a few timely suggestions on managing the massively accelerated energies that silently stir your planet The Pleiadians *Barbara*

Marciniak Lloyd Leon,2025-09-05 The origins of Pleiadian knowledge can be traced back to ancient civilisations that sought to understand the cosmos and their place within it The Pleiadians often regarded as a highly evolved extraterrestrial race have been instrumental in guiding humanity through various epochs of spiritual awakening Their teachings encompass a wide array of subjects including healing personal growth and the interconnectedness of all life forms As humanity evolves the relevance of this knowledge becomes increasingly apparent providing tools and insights for navigating the complexities of modern existence *Logo, Font & Lettering Bible* Leslie Cabarga,2004-02-15 This book is a hands on guide to the entire process of making logos and fonts and even icons all of which essentially start with the ability to draw letterforms The intent of the book in fact is to enable the user to end reliance on OPF other people s fonts and learn to draw your own custom logos

fonts and lettering Logo Font Lettering Bible is unique in that it teaches you how to create logos and fonts from scratch using traditional tools as well as the computer programs Adobe Illustrator and Fontographer plus a bit about FontLab The book provides all the traditional rules and tips about letter formation relating to proportion shaping balance spacing composition and actually teaches five different methods of drawing letters on computer using bezier curves There has never been a book like this one that goes into so much detail about drawing letters and takes such a fun and irreverent approach while doing so The book is also full of inspiration and analysis of tons of great examples of vintage and current lettering from old manuscripts to graffiti Logo Font Lettering Bible also shows you how to create fancy drop shadows and other type effects And finally the last section provides straight talk on the business of being a logo and font designer from advertising your work and pricing to dealing with difficult clients aren't they all
