Blanchard Jr., 2015-11-30 A reprint of Larry Arnhart s essay Darwinian Conservatism with comment and criticism from a variety of contributors How Science Works: Evolution R. John Ellis, 2010-01-18 Evolution is just a theory isn t it What is a scientific theory anyway Don t scientists prove things What is the difference between a fact a hypothesis and a theory in science How does scientific thinking differ from religious thinking Why are most leading scientists atheists Are science and religion compatible Why are there so many different religious beliefs but only one science What is the evidence for evolution Why does evolution occur If you are interested in any of these questions and have some knowledge of biology this book is for you *Science and Spirituality* Michael Ruse, 2010-03-08 Introduction The world as an organism The world as a machine Organisms as machines Thinking machines Unasked questions unsolved problems Organicism God Morality souls eternity mystery **Words for a Small Planet** Nanette Norris, 2013 Ecocriticism has matured beyond nature writing beyond writing about nature The essays in this volume look at the broader cultural historical sociological and psychological implications of ecology in written visual and sound culture In keeping with our sense of a global community these essays are representative of international scholarship on ecology and the environment and display the range of insight of which this criticism is capable Focusing on popular culture this volume is in the vanguard of our collective reflections on the directions in which our various societies are going *Encyclopedia of Evolution* Stanley A. Rice, 2009 Evolutionary science is not only one of the greatest breakthroughs of modern science but also one of the most controversial Perhaps more than any other scientific area evolutionary science has caused us all to question what we are where we came from and how we relate to the

rest of the universe Encyclopedia of Evolution contains more than 200 entries that span modern evolutionary science and the history of its development This comprehensive volume clarifies many common misconceptions about evolution For example many people have grown up being told that the fossil record does not demonstrate an evolutionary pattern and that there are many missing links In fact most of these missing links have been found and their modern representatives are often still alive today The biographical entries represent evolutionary scientists within the United States who have had and continue to have a major impact on the broad outline of evolutionary science The biographies chosen reflect the viewpoints of scientists working within the United States Five essays that explore interesting questions resulting from studies in evolutionary science are included as well The appendix consists of a summary of Charles Darwin s Origin of Species which is widely considered to be the foundational work of evolutionary science and one of the most important books in human history The five essays include How much do genes control human behavior What are the ghosts of evolution Can an evolutionary scientist be religious Why do humans die Are humans alone in the universe

Theistic Evolution J. P. Moreland, Stephen C. Meyer, Christopher Shaw, Ann K. Gauger, Wayne Grudem, 2017-11-15 Many prominent Christians insist that the church must yield to contemporary evolutionary theory and therefore modify traditional biblical ideas about the creation of life They argue that God used albeit in an undetectable way evolutionary mechanisms to produce all forms of life Featuring two dozen highly credentialed scientists philosophers and theologians from Europe and North America this volume contests this proposal documenting evidential logical and theological problems with theistic evolution making it the most comprehensive critique of theistic evolution yet produced
