*Motivation and Foreign Language Learning* David Lasagabaster, Aintzane Doiz, Juan Manuel Sierra, 2014-07-31 Motivation is a key aspect of second language learning There is no doubt that abstract models are basic to gain theoretical insights into motivation however teachers and researchers demand comprehensible explanations for motivation that can help them to improve their everyday teaching and research The aim of this book is to provide both theoretical insights and practical suggestions to improve motivation in the classroom With this in mind the book is divided into two sections the first part includes innovative ideas regarding language learning motivation whereas the second is focused on the relationship between different approaches to foreign language learning such as EFL English as a foreign language CLIL Content and Language Integrated Learning or immersion and motivation Both sections have an emphasis on pedagogical implications that are rooted in both theoretical and empirical work

**How important is motivation in second language learning? I.**

Magel, 2017-06-15 Seminar paper from the year 2012 in the subject Didactics for the subject English Pedagogy Literature Studies grade 2 0 Saarland University language English abstract Motivation in second language learning is an increasingly important area in applied linguistics The current state of research is characterized by many different approaches which have developed over time Today there are still divided views about motivation The social psychological approach dominated until the early 1990s Criticized later supplemented and eventually replaced by pedagogical and psychological concepts In order to understand the importance of motivation in second language learning it is important to look at different types of motivation

after clarifying the definition of the term motivation used in the text below This paper has been divided into three parts First I will give a definition of the term motivation Then I will focus on different kinds of motivation especially the distinctions between motivation regarding learning in general by Deci and Ryan and motivation especially in language learning by Gardner Finally the practical part deals with motivation in second language classroom in Saarland Thus the main question addressed in this paper is How important is motivation in second language learning

*Motivation and Second Language Learning* Tanja Lins, 2007-11 Seminar paper from the year 2005 in the subject English Language and Literature Studies Linguistics grade 86% High Distinction Monash University Melbourne School of Linguistics course Second Language Acquisition 13 entries in the bibliography language English abstract Why do people learn second languages Why do for example Australians study Japanese or Korean people study French The answers to these questions are important according to Rebecca Oxford 1994 because motivation is considered by many researchers to be one of the main determining factors in success in developing a second or foreign language p 12 Gardner even claims L2 motivation to be the primary factor in L2 learning in his socio educational model 1994 p 361 Therefore an investigation of the components of motivation and the influence of motivation on L2 learning seems quite reasonable This essay will focus on the concept of motivation in second language learning Initially the definition of the term motivation shall be discussed and this will be followed by an identification of the key terms Then the attention shall be drawn to research results concerning the importance of motivation as influencing second language learning The essay will discuss Gardners quantitative approach and a recent research of Ushioda shall be taken into account that seeks to provide an alternative qualitative approach This approach focuses on students beliefs and thinkings rather than on measurable and observable activity A final chapter will focus on implications for teaching

their later lives They simply learn it because it is in the curriculum of their school which is designed for the needs of society rather than for the learner s interests This does not seem like a good point of departure for a successful learning process So it is the teacher s major challenge to motivate the students to put effort in learning the foreign language But how does motivation influence second language learning This paper will define motivation and introduce different motivation theories Then it will discuss the influences of motivation on second language learni
