Project Management Gray Larson 5 Edition:

National Association of Broadcasters Engineering Handbook Garrison Cavell, 2017-07-28 The NAB Engineering Handbook is the definitive resource for broadcast engineers. It provides in depth information about each aspect of the broadcast chain from audio and video contribution through an entire broadcast facility all the way to the antenna. New topics include Ultra High Definition Television, Internet Radio, Interfacing and Streaming, ATSC 3.0, Digital Audio Compression Techniques, Digital Television, Audio Loudness Management, and Video Format and Standards Conversion. Important updates have been made to incumbent topics such as AM Shortwave FM and Television Transmitting Systems, Studio Lighting, Cameras, and Principles of Acoustics. The big picture comprehensive nature of the NAB Engineering Handbook will appeal to all broadcast engineers, everyone from broadcast chief engineers who need expanded knowledge of all the specialized areas they encounter in the field to technologists in specialized fields like IT and RF who are interested in learning about unfamiliar topics. Chapters are written to be accessible and easy to understand by all levels of engineers and technicians. A wide range of related topics that engineers and technical managers need to understand are covered, including broadcast documentation, FCC practices, technical standards, security, safety, disaster planning, facility planning, project management, and engineering management.

Sustainable Business Geoffrey Wells, 2013-01-01 This is an immensely useful and important book. By applying sustainability theory and practice to all areas of business management for firms of all sizes, it has the potential to make a significant difference to the long term viability of businesses and the societies in which they operate. Juliet Roper, The University of Waikato, New Zealand. Recent surveys of international CEOs confirm that companies increasingly see sustainability as critical to their business strategy. The rigorous academic framework for the field of sustainable business required to respond to this need is now emerging. This book presents important new work in the theory of the sustainable firm, in the application of sustainability principles to key management disciplines in sustainable business in practice, and in the international challenges that are critical to sustainability demands. Sustainable Business will prove invigorating for both undergraduate and graduate students on business, society, and sustainability themed courses. Policymakers and practitioners will find the urgent global sustainability issues and sub-disciplines essential.

[Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy](#) Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B.

Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korqu Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town, South Africa. 7 Sept 2016 - 8 Sept 2016. Theme: Sustainable economies in the information economy. Purpose: To share the quality academic papers presented at the International Conference on Business and Management Dynamics (ICBMD) held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town. As grey literature, the proceedings are the

contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates

Methodology

The methodology used varies from researcher to researcher but are suitable for the studies conducted. Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data. On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data. However there were some academic papers which used mixed methodology because of the nature of the study. Whatever methodology used adhered to the ethos of the philosophies underpinning the methodology.

Contribution made to scholarship

The articles come from individual researchers and each article in the proceedings is unique. Mostly there is no general argument leading from one contribution to the next. However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth. With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic. Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors. Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation. With regard to technology and big data impact on organisational performance it was evident that system performance, memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance. Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness.

Target audience

The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics, information management, business education, development studies, social sciences and technology. It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment.

Project Management Eric W. Larson, Clifford F. Gray, 2020. Project Management 8e provides a holistic and realistic approach to Project Management that combines the human aspect and culture of an organization with the tools and methods used. It covers concepts and skills used to propose plan, secure resources, budget and lead project teams to successful completion of projects. This text is not only on how the management process works but also and more importantly on why it works. It is not intended to specialize by industry type or project scope rather it is written for the individual who will be required to manage a variety of projects in a variety of organizational settings. 8e was written for a broad range of audiences including project managers, students, analysts and Project Management Institute Members preparing for certification exams.
