AP Human Geography - Chapter Six: Religion

1. What questions about religion do geographers try to answer? Where and Why?

2. Why do geographers find the tensions between globalization and local diversity especially acute in religion? (Give five reasons.)
 1. People care deeply about their religion and draw their core values and beliefs from it

 2. Some religions have universal appeal and others local appeal

 3. Religious values show how people feel and the meaningful ways they alter the landscape

 4. Most (but not all) religions require strict adherence, so adopting a global religion could mean turning away from traditional local religion

 5. Migrants take their religion with them and typically don't adopt a new religion, but unlike language retain their own

3. Explain how universalizing religions differ from ethnic religions: Universalizing religions attempt to be global and appeal to all people, not to just one culture or location. An ethnic religion appeals primarily to one group of people living in one place

4. Identify each of the following:
 - a. Religious branch: a large and fundamental division within a religion

 - b. Religious denomination: a division of a branch that unites a number of local congregations in a single legal and administrative body

 - c. Religious sect: a relatively small group that has broken away from an established denomination

5. Name the three universalizing religions
 - a. Christianity

 - b. Islam

 - c. Buddhism
