Kasper, Michelle Kolet, Kendra Letzel, Thomas Letzel, 2006-09-27 *Experiencing Mathematics Activities to Engage the High School Student* is the result of the collaborative effort of nine Adolescent Young Adult (AYA) National Board Certified Teachers in mathematics. This teacher edition is a compilation of successful activities that prompt high school students to explore conjecture and reflect on their mathematical adventures, thus experience mathematics. The relevant nature of the activities will motivate students to pursue their investigations with vigor and take the intellectual risk necessary to construct knowledge and improve problem-solving competence. This edition will educate teachers regarding tenets of cognitive science, motivation theory, and the NCTM/NBCT standards. It will dispel the myth that the crowded curriculum does not have room for such activities and in fact will convince teachers that using such activities increases teacher and student motivation and achievement. The resources provide detailed instructions for each activity along with student prompts and reflective questions for the teacher. *Geometry* Nichols, 1991.
