

DBQ 9: Imperialism in Africa

(Adapted from *Document-Based Assessment for Global History*, Walch Education)

Historical Context:

European imperialism in the late nineteenth and twentieth centuries resulted in the carving up of areas of Africa and Asia into vast colonial empires. This was true for most of the continent of Africa. As imperialism spread, the colonizer and the colony viewed imperialism differently. They saw both positive and negative effects of imperialism.

 2. Now, read each document carefully, underlining key phrases and words that address the document-based question. You may also wish to use the margin to make brief notes. Answer the questions which follow each document.
 3. Based on your own knowledge and on the information found in the documents, formulate a thesis that directly answers the question.

Document 1

This excerpt is adapted from *Imperialism* by J.A. Hobson, a British scholar.

The period of imperialism has witnessed many wars. Most of these wars have been caused by attacks of white races upon so-called "lower races." They have resulted in the taking of territory by force. . . . The white rulers of the colonies live at the expense of the natives. Their chief work is to organize labor for their support. In the typical colony, the most fertile lands and the mineral resources are owned by white foreigners. These holdings are worked by natives under their direction. The foreigners take wealth out of the country. All the hard work is done by natives.

What negative aspects of imperialism does this British scholar point out? _____
