**Children's Human Rights and Public Schooling in the United States** Julia Hall,2013-02-11 Promotion Text for Children s Human Rights and Public Schooling in the United States Julia Hall The United States tends to portray itself as a human rights leader However human rights concerns are confronted everyday by people in this democracy including children The purpose of this volume is to bring attention to the fact that against the backdrop of neoliberal expansion serious human rights violations are taking place among children everywhere including in the US The daily struggles among groups of school children in the US are specifically considered here such as children who are sorted by race homeless children transient children child refugees children as targeted by human traffickers and or child migrant workers As the economy continues to constrict more and more young people find themselves struggling to grow up on these razor

thin margins of survival Given current economic arrangements such margins are widening The definition of children s human rights as understood in this analysis is taken directly from the UN Convention on the Rights of the Child CRC Here emphasis is placed on ways in which the CRC could be used to serve more effectively the needs of the most vulnerable populations of school age children in the US and elsewhere Public schools could be the very place where children come to understand they have rights Unfortunately many children do not get this information Instead the protections stated in the CRC and the realities of the lives of so many children are often worlds apart This volume sets out to be a part of changing this

**Malaysia in the World Economy (1824-2011)** Azlan Tajuddin,2012-06-14 Does the industrial development of a country entail the democratization of its political system Malaysia in the World Economy examines this theme with regards to Malaysia in the period between 1824 and 2011 Capitalism was first introduced into Malaysia through colonialism specifically to supply Britain with much needed raw materials for its industrial development Aside from economic exploitation colonial rule had also produced a highly unequal and socially distant multicultural society whose multifaceted divisions kept the colonial rulers in supreme authority After independence Britain ensured that Malaysia became a staunch western ally by structuring in a capitalist system specifically helmed by western educated elites through what appeared to be formal democratic institutions In such a system the Malaysian ruling elites have been able to manage the country s democratic processes to its advantage as well as preempt or suppress serious internal challenges to its power often in the name of national stability As a result an increasingly unpopular National Front political coalition has remained in power in the country since 1957 Meanwhile Malaysia s marginal position in the world economy which has maintained its economic subordination to the developed countries of the west and Japan has reproduced the internal social inequities inherited from colonial rule and channeled the largest returns of economic growths into the hands of the country s foreign investors as well as local elites associated with the ruling machinery Over the years however the state has lost some of its political legitimacy in the face of widening social disparities increased ethnic polarization and prevalent corruption This has been made possible by extensive exposures of these issues via new social media and communications technology Hence informational globalization may have begun to empower Malaysians in a new struggle for political reform thereby reconfiguring the balance of power between the state and civil society Unlike other past research Malaysia in the World Economy combines both macro and micro theoretical approaches in critically analyzing the relationship between capitalist development and democratization in Malaysia within a comparative historical and world systemic context Globalization and Change Berch Berberoglu,2005-01-01 Globalization and Change The Transformation of Global Capitalism explores the capitalist implications of globalization from a critical and historical perspective By looking at the contradictions inherent in globalization this book provides a thorough understanding of the labor issues behind and fight against the capitalist global economy **Beyond Borders** Paula S. Rothenberg,2006 This interdisciplinary collection of 82 articles is designed to bring today s most pressing issues into the classroom and help

prepare college students to assume their roles as members of an increasingly global community *Democratic Peace in Theory and Practice* Steven W. Hook,2010 Historical patterns suggest that democratic governments which often fight wars against authoritarian regimes maintain peaceful relationships with other governments that uphold political freedoms and empower their civil societies This timely collection of essays by leading scholars examines how democracies maintain relationships and how democratic principles are spread throughout the world *Ri Im Sociology* Schaefer,2002-07

Chall,2000 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers *International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences* ,2004 **CSA Political Science & Government** ,2004
