Handbook of Social Impact Assessment and Management Frank Vanclay,Ana Maria Esteves,2024-03-14 This is an open access title available under the terms of a CC BY NC ND 4 0 License It is free to read download and share on Elgaronline com This carefully conceived Handbook presents a state of the art discussion of the field of social impact assessment SIA highlighting contemporary understandings and emerging issues in this continually evolving area of research and practice Experienced SIA practitioners from around the world share their learnings and advice on a comprehensive range of issues faced in social performance practice

Teaching IFRS Richard M.S. Wilson,Ralph W. Adler,2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards IFRS highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS Teaching IFRS offers expert descriptions of and insights into the IFRS convergence process from a teaching and learning perspective Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption Drawing upon the experiences of those who have sought to introduce IFRS related classroom innovations and the associated student outcomes achieved therefrom the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS related teaching resources to support those courses This book was originally published as a special issue of Accounting Education An international journal

Law and the Management of Disasters Alexia Herwig,Marta Simoncini,2016-12-01 Disasters raise serious challenges for contemporary legal orders they demand

significant management but usually amidst massive disruption to the normal functioning of state authority and society. When dealing with disasters, law has traditionally focused on contingency planning and recovery. More recently, however, resilience has emerged as a key concept in effective disaster management policies and strategies aiming at minimising the impact of events so that the normal functioning of society and the state can be preserved. This book analyses the contribution of law to resilience building by looking at law's role in the different phases of the disaster regulatory process: risk assessment, risk management, emergency intervention and recovery. More specifically, it addresses how law can effectively contribute to resilience-oriented disaster management policies and what legal instruments can support effective resilience building.

Supporting healthy environments and livelihoods in the Congo-Nile Ridge landscape of Rwanda. Synthesis report

Behind the Swap Andrew DeJoy, 2022-05-10

Andrew DeJoy's *Behind the Swap* examines the risks involved in post-trade processing in swaps and derivative markets and provides solutions to better control those risks. While Andrew doesn't claim to have all the answers, he does believe there is a way to create a safer, stronger and better financial system for all stakeholders. In August of 2020, Citibank made one of the worst mistakes in banking history: it accidentally sent out almost 900 million of its own funds. Many of the recipients didn't give back the money; Citibank sued, and a federal court ruled that the recipients could keep the funds. Citibank's error is not surprising. The underlying contributors that led to the mistaken payment permeate the global financial services industry: manual data entry, decades-old technological infrastructure, inadequate training and systems that can't interact with one another are just a few of the problems that face post-trade processing. The machinery behind financial markets, unfortunately, years of neglect by regulators and financial institutions themselves has left this infrastructure needlessly complex, astoundingly inefficient, frequently inaccurate and woefully inadequate for modern financial markets. *Behind the Swap* helps explain what's driving the recent series of banking blunders like Barclay's 678 million clerical error and Citibank's fat finger Flash Crash that caused an 8% decline in the Swedish stock market. The book also touches on concepts that readily connect to Credit Suisse's 5.5 billion loss on its trades with Archegos. The problems are easy to see but difficult to admit. For financial institutions, the current system costs billions of dollars each year in labor, systems maintenance and lost funds. For regulators, the current system precludes the ability to track systemic risk. It also artificially inflates the stability of the global financial system. For lawyers and prosecutors, the current system allows ample opportunity for unlawful misconduct such as rogue trading and fraud.

Strategic Finance, 2008

The Oxford Companion to Global Change David J. Cuff, Andrew Goudie, 2009

The *Oxford Companion to Global Change* is an up-to-date, comprehensive interdisciplinary guide to the range of issues surrounding natural and human-induced changes in the Earth's environment. In one convenient volume, the Companion brings together current knowledge about the relations between technological, social, demographic, economic

and political factors as well as biological chemical and physical systems It is an essential reference work for students teachers researchers and other professionals seeking to understand any aspect of global change *International Journal of Micrographics & Optical Technology* ,2006 **The Parliamentary Debates (Hansard)**. Great Britain. Parliament. House of Lords,2009 *The Software Encyclopedia* ,1988 *Art and Cultural Heritage* Barbara T. Hoffman,2006 Art and Cultural Heritage is appropriately but not solely about national and international law respecting cultural heritage It is a bubbling cauldron of law mixed with ethics philosophy politics and working principles looking at how cultural heritage law policy and practice should be sculpted from the past as the present becomes the future Art and cultural heritage are two pillars on which a society builds its identity its values its sense of community and the individual The authors explore these demanding concerns untangle basic values and look critically at the conflicts and contradictions in existing art and cultural heritage law and policy in its diverse sectors The rich and provocative contributions collectively provide a reasoned discussion of the issues from a multiplicity of views to permit the reader to understand the theoretical and philosophical underpinnings of the cultural heritage debate *The British National Bibliography* Arthur James Wells,2009 *Managing the Water and Wastewater Utility* Robert Baker,Roger J. Dolan,Michael Barnes,2003 This book is designed to help transform the specialist into a leader *Civil Engineering* ,2004 *Imaging & Document Solutions* ,2000 **Proceedings of the Institution of Civil Engineers** ,2008 **Global Information Technologies** Felix B. Tan,2008 This collection compiles research in all areas of the global information domain It examines culture in information systems IT in developing countries global e business and the worldwide information society providing critical knowledge to fuel the future work of researchers academicians and practitioners in fields such as information science political science international relations sociology and many more Provided by publisher *F & S Index United States Annual* ,2006 *The Georgia Journal of International and Comparative Law* ,2014
