Introduction To Algorithms 3rd Edition Instructor :

Introduction to Algorithms (Instructor's Manual) Thomas H. Cormen, Charles E. Leiserson, Ronald L. Rivest, Clifford Stein, 2014-01-25 This document is an instructor's manual to accompany Introduction to Algorithms Second Edition by Thomas H. Cormen, Charles E. Leiserson, Ronald L. Rivest, and Clifford Stein. It is intended for use in a course on algorithms. You might also find some of the material herein to be useful for a CS 2 style course in data structures. Unlike the instructor's manual for the first edition of the text, which was organized around the undergraduate algorithms course taught by Charles Leiserson at MIT in Spring 1991, we have chosen to organize the manual for the second edition according to chapters of the text. That is, for most chapters, we have provided a set of lecture notes and a set of exercise and problem solutions pertaining to the chapter. This organization allows you to decide how to best use the material in the manual in your own course.
