Murat Tekalp Digital Video Processing Solution:

Digital Video Processing A. Murat Tekalp, 2015-06-06 Over the years thousands of engineering students and professionals relied on Digital Video Processing as the definitive in depth guide to digital image and video processing technology Now Dr A Murat Tekalp has completely revamped the first edition to reflect today's technologies techniques algorithms and trends Digital Video Processing Second Edition reflects important advances in image processing computer vision and video compression including new applications such as digital cinema ultra high resolution video and 3D video This edition offers rigorous comprehensive balanced and quantitative coverage of image filtering motion estimation tracking segmentation video filtering and compression Now organized and presented as a true tutorial it contains updated problem sets and new MATLAB projects in every chapter Coverage includes Multi dimensional signals systems transforms sampling and lattice conversion Digital images and video human vision analog digital video and video quality Image filtering gradient estimation edge detection scaling multi resolution representations enhancement de noising and restoration Motion estimation image formation motion models differential matching optimization and transform domain methods and 3D motion and shape estimation Video segmentation color and motion segmentation change detection shot boundary detection video matting video tracking and performance evaluation Multi frame filtering motion compensated filtering multi frame standards conversion multi frame noise filtering restoration and super resolution Image compression lossless compression JPEG wavelets and JPEG2000 Video compression early standards ITU T H 264 MPEG 4 AVC HEVC Scalable Video Compression and stereo multi view approaches

Image Analysis and Recognition Mohamed Kamel, Aurélio Campilho, 2005-10-10 ICIAR 2005 the International Conference on Image Analysis and Recognition was the second ICIAR conference and was held in Toronto Canada ICIAR is organized annually and alternates between Europe and North America ICIAR 2004 was held in Porto Portugal The idea of offering these conferences came as a result of discussion between researchers in Portugal and Canada to encourage collaboration and exchange mainly between these two countries but also with the open participation of other countries addressing recent advances in theory methodology and applications

The response to the call for papers for ICIAR 2005 was encouraging From 295 full papers submitted 153 were finally accepted 80 oral presentations and 73 posters The review process was carried out by the Program Committee members and other reviewers all are experts in various image analysis and recognition areas Each paper was reviewed by at least two reviewers and also checked by the conference co chairs The high quality of the papers in these proceedings is attributed first to the authors and second to the quality of the reviews provided by the experts We would like to thank the authors for responding to our call and we wholeheartedly thank the reviewers for their excellent work and for their timely response It is this collective effort that resulted in the strong conference program and high quality proceedings in your hands
