

PESTLE analysis for beauty and personal care products and market size

This slide presents a PESTLE analysis of beauty and personal care products to gain a comprehensive understanding of industry environment and potential threats. It covers areas such as political, economical and social.

PESTLE	Description
Political	<ul style="list-style-type: none">Due to the nature of the cosmetic products, strict regulations are utilized as these commodities are directly utilized on the skinMany ingredients used in the production of these products are directly imported from other regions of the globe, this calls for a lot of export and import related regulations from the authoritiesTesting of these products also calls for high regulatory based restriction as testing on animals have become illegal in most of developed nations
Economical	<ul style="list-style-type: none">Beauty and personal care products are treated as necessary by today's society, as a need to be well-groomed and look good always prevails. This is one of the most influencing reasons that economic factors had no effect on the industryThe industry has highly contributed to the overall US economy as skincare alone was able to generate over \$11 bn in revenues in 202214% of the total market share of the industry is held by cosmetics segment
Social	<ul style="list-style-type: none">Distribution of sanitizers with brand name to the frontline workers during COVIDHigh-end beauty and personal care products are viewed as luxury and have contributed heavily in the factorHaving a daily skincare routine has become a fashion trend now as companies have started to market themselves as trendsetters
