Guidance on competency-based interviewing

What is competency-based interviewing?

bp uses competency-based interviewing to identify capable individuals who can contribute to bp's success. Competency-based interviewing focuses on how you have applied your skills and experiences to particular work situations.

Why does bp use a competency-based approach?

A competency-based interview process provides interviewers with a way to obtain information about skills that are best explored during an in-person discussion. Gathering detailed information about these skills generally helps interviewers identify candidates who are more likely to be high performers.

What can I expect during the interview process?

Trained interviewers will conduct the bp interviews and guide you through the process. Typically, the interview will last approximately ninety minutes and is conducted by interviewers from the relevant project or program. The interviewers will ask you a set of questions designed to measure the competencies important to the role for which you are applying.
