Achieving Cultural Competency A Case Based Approach To Training Health Professionals:

Achieving Cultural Competency Lisa Hark, Horace DeLisser, MD, 2011-09-07 *Achieving Cultural Competency A Case Based Approach to Training Health Professionals* provides the necessary tools to meet the ever growing need for culturally competent practitioners and trainees. Twenty five self study cases cover a variety of medical topics including cardiovascular pulmonary neurology oncology hematology immunology and pediatric disorders. Actual scenarios that occurred in clinical settings help the user gain direct insight into the realities of practice today. Cultural factors covered within the cases include cultural diversity plus gender language folk beliefs socioeconomic status religion and sexual orientation. This book is an approved CME certifying activity to meet physicians cultural competency state requirements. Get 25 pre approved self study American Dietetic Association credits at no additional charge when you purchase the book. Email hark lisahark com for further instructions.

Nurturing Medical Professionalism in Different Cultural Contexts Kamran Sattar, Kate Owen, Bhavani Veasuvalingam, 2025-09-08. Medical professionalism is a multifaceted concept encompassing diverse perspectives shaped by cultural influences. In Western societies professionalism often emphasizes traits like objectivity clinical competence and adherence to ethical codes. This viewpoint emphasizes the importance of a standardized approach to patient care and the primacy of evidence based medicine. However cultural influences can significantly alter these perceptions. In many Eastern cultures for instance medical professionalism may also prioritize qualities such as empathy humility and interpersonal relationships. Here the doctor patient bond holds immense significance often influencing treatment decisions and patient outcomes. Additionally cultural backgrounds can shape perceptions of authority with some cultures valuing a more paternalistic doctor patient dynamic while others emphasize shared decision making and patient autonomy. Thus understanding and respecting varied cultural perspectives is integral to fostering true professionalism in medicine ensuring effective communication and equitable care delivery across diverse patient populations.

Clinical Supervision Activities for Increasing Competence and Self-Awareness Roy A. Bean, Sean D. Davis, Maureen P. Davey, 2014-03-18. Cultivate self awareness empathy and clinical competence in the mental health professionals you supervise.

Providing tested guidance for clinical supervisors of mental health professionals editors Roy A Bean Sean D Davis and Maureen P Davey draw from their own backgrounds in training private practice and academe as well as from an international panel of experts representing various mental health fields to provide activities and best practices that allow therapists to better serve an increasingly diverse set of clients and issues While clinical skills are easily observed the more subtle areas of self awareness or exploring unexamined judgments are more difficult to spot and to provide supervision and guidance for The numerous experiential activities included will help supervisors and the mental health professional they supervise develop their skills and techniques around Intuition Empathy Self awareness Mindfulness Multicultural awareness Perspective taking The book covers both clinical as well as diversity focused competence and awareness and suggests various forms of activities including research exercises reflection journaling and more Each activity includes measurement metrics as well as additional resources that help clinicians identify the best activity for a given situation Appropriate for clinicians at every level and from a multitude of backgrounds these tried and tested best practices can be used in clinical supervision as a class assignment or to facilitate professional growth

Helping Children and Families Cope with Parental Illness Maureen Davey, Karni Kissil, Laura Lynch, 2016-03-31 When a parent or parental figure is diagnosed with an illness the family unit changes and clinical providers should consider using a family centered approach to care and not just focus on the patient coping with the illness Helping Children and Families Cope with Parental Illness describes theoretical frameworks common parental illnesses and their course family assessment tools and evidence supported family intervention programs that have the potential to significantly reduce negative psychosocial outcomes for families and promote resilience Most interventions described are culturally sensitive for use with diverse populations in diverse practice settings and were developed for two parent single parent and blended families

Culture across the Curriculum Kenneth D. Keith, 2018-04-12 Culture across the Curriculum provides a useful handbook for psychology teachers in the major subfields of the discipline From introductory psychology to the foundations in such areas as social psychology statistics research methods memory cognition personality and development to such specialized courses as language sexual minorities and peace psychology there is something here for virtually every teacher of psychology In addition to discussions of the rationale for inclusion of cultural context in their areas of specialization these experienced teachers also offer advice and ideas for teaching exercises and activities to support the teaching of a psychology of all people

Psychosocial Considerations in Pediatric Kidney Conditions Anne E. Dawson, Kaushalendra Amatya, Victoria F. Norwood, 2024-12-03 This book explores the psychosocial impacts of the kidney disease process and treatments on pediatric patients including child development schooling coping and resilience Chronic illnesses and invasive treatments can be particularly impactful on children s development and identity formation and a multidisciplinary treatment model that takes psychosocial considerations into account is imperative for patients overall wellbeing This book covers both specific disease related concerns including dialysis transplantation and nutrition and

broader issues such as collaborating with schools supporting families advocacy and the transition to adult healthcare Written by experts in a rapidly developing area this book is an excellent resource for all people impacted by and involved in caring for pediatric kidney diseases including practicing nephrologists and nephrologists in training as well as psychosocial providers serving nephrology patients and even families and patients themselves
