

Your Ademco Combination Fire-Burglary Alarm System

(Models 330R, 332R, 342R*)

INTRODUCTION

Your master control panel is designed to alert you in the event of either a forced entry into a protected area or signal an alarm if a fire alarm condition exists. We have accomplished this by engineering our panel to include a burglar alarm circuit, a panic or emergency circuit, and a fire alarm circuit.

The burglar alarm section of the master control provides for two zones of operation. This enables the installation to be separated into two areas of protection. This can be used for either interior and perimeter protection or simply to "zone" the system should you desire to eliminate part of your protection for some reason. Also, if equipped, your master control may have a third "delay" zone which enables you to exit without having to re-arm the system by using an outdoor remote control.

When all of your protective devices are "closed" (doors, windows, etc.), a system "ready" lamp will light on your remote station (GREEN for two-lamp arming stations, or flashing RED for one-lamp arming stations). If one of these devices is "open", the ready light will not be on and, therefore, you will not be able to arm your system. Once armed, should any of these protective units "open", your alarm sounding device will turn on and can not be reset unless either the remote station is used to disarm the system or, in the event of a panic alarm, a switch located inside the locked master control is depressed.

The fire alarm circuitry in the master control, on the other hand, operates in a different fashion. The detectors in the fire alarm circuit are "open" normally and "closed" during an alarm condition.

HOW TO OPERATE YOUR ADEMCO SECURITY SYSTEM

ARMING THE SYSTEM: The burglar alarm circuit of your Ademco Security System may be operated from **indoor or outdoor remote control stations**. Indoor remote stations have GREEN and RED, or just RED system status lamp(s) mounted on them, and either a push button, a momentary key-operated switch lock, or a digital keypad requiring a correct number combination. Outdoor remote stations have only a red status lamp and a momentary key-operated switch lock.

GREEN (OR FLASHING RED) STATUS LAMP (System OFF): When all windows and doors being monitored by intrusion detectors are closed and all inside trap protection devices such as under-the-carpet mats, photoelectric beams, and motion detectors are operating properly, the status lamp on all indoor remote control stations will be lit. The lit GREEN lamp (flashing RED for one-lamp stations) indicates that the security system is OFF but ready for arming.

However, supervision is still maintained at all times since double wiring is used, and a signal will be initiated should a wire break in this particular circuit (Model 342R only). The fire alarm portion of the system operates on a 24-hour basis. There is no way to turn this circuit off. Therefore, you are fully protected around the clock should a fire occur.

In order to easily distinguish between a burglary condition and a fire condition, the master control panel provides for two entirely separate signaling circuits. One set of terminals is connected to a bell to alert you that there is either a burglary or panic condition existing. A separate horn is wired to the fire signaling terminals and will only sound during a fire alarm condition. Since the bell sounds only for burglary or panic and the horn for only fire, you can immediately determine the nature of the alarm.

Instead of using a separate bell for burglary or panic and a horn for fire, your system may include a special module which provides for two distinctly different sounds using only one bell or one siren for signaling purposes. When installed, the module allows the bell or siren to sound in a steady manner for burglary or panic and pulses the bell on and off for a fire alarm condition; therefore, if the bell rings steadily you know that either a burglary or panic situation exists. If the bell or siren pulses on and off, you know that the fire alarm signaling circuit has been activated. Check with your installer to make certain that you understand which type of signaling system you have.

RED STATUS LAMP (System ON): After the GREEN (flashing RED for one-lamp stations) lamp is lit, the system may be turned ON by momentarily depressing the pushbutton, turning the key lock in any remote control station, or by entry of your number code on a keypad. This automatically lights the RED lamps steadily on all remote stations. If any intrusion detector or interior trap device is now tripped, an immediate alarm will sound (except for entry doors, if a delay zone is used).

DISARMING THE SYSTEM: The system may be turned OFF at a remote station by depressing a pushbutton, turning a key switch or by pushing the proper number code (on a remote digital keypad) on any remote station. Turning the RED light off disarms the system.

Ademco M7068 Manual Introduction

In the digital age, access to information has become easier than ever before. The ability to download Ademco M7068 Manual has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Ademco M7068 Manual has opened up a world of possibilities. Downloading Ademco M7068 Manual provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Ademco M7068 Manual has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Ademco M7068 Manual. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Ademco M7068 Manual. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Ademco M7068 Manual, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Ademco M7068 Manual has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading

practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
