

Delivery structure

EPI courses are lectured by certified trainers. CDCP® is an instructor-led course that uses a combination of lectures and question-and-answer sessions, to discuss participants' specific needs and issues experienced in their own environment. Participants are able to tap into the trainer's extensive experience to enable them to solve practical problems in their current environment, thus adding tremendous value.

Examination

Certification exams are administered at the end of the last training day by an authorised training partner, either using paper-based or online format, depending on the country in which the course is delivered. The exam is a 60-minute closed book exam, with 40 multiple-choice questions. The candidate requires a minimum of 27 correct answers to pass the exam. Online exam results are known immediately and paper-based exam results will be known within one week.

Certification

Candidates who successfully pass the exam will receive the official 'Certified Data Centre Professional' certificate. The certification is valid for three years after which the student needs to re-certify. More information is available on the EPI corporate website at www.epi-ap.com.

Global Accreditation & Recognition

EXIN, is a global, independent and not-for-profit examination provider. EXIN's mission is to improve the quality of the IT and data centre sectors, the proficiency of IT and data centre professionals and the IT users, by means of independent testing and certification. EXIN offers candidates the opportunity to take examinations at a time and place of their choice. Every day, EXIN examinations are taken in more than 125 countries on six continents, and in more than 15 languages.

BICSI recognises CDCP® – Certified Data Centre Professional training for BICSI Continuing Education Credits (CECs). BICSI provides information, education and knowledge assessment for individuals and companies in the ICT industry. BICSI serve more than 23,000 ITS professionals, including designers, installers and technicians. CDCP® certificate holder will gain the following points; RCCD=14; RITP=14; ESS=2; NTS=14; Installer 2 Copper/Fiber=14; Technician=14; Certified Trainer=14.

Recommended next course

To further extend your skills in the data centre design arena, we recommend the CDFOM® and CDCS® course. CDFOM® addresses the operational aspects of running a data centre and builds on the knowledge gained during CDCP®. In CDCS®, participants will gain advanced knowledge to review designs of existing and/or future data centres. CDCS® is a 'must have' course for those who are expected to manage or be involved in a data centre build or renovation project. For full course outlines, visit the EPI website, www.epi-ap.com.

Course schedule

Our courses are available in over 50 countries across all continents. For a comprehensive course schedule, visit the EPI corporate website at www.epi-ap.com or contact your local authorised reseller/partner.
