Holland, Rayford Gaines Anthony, 19?? Maple V: Mathematics and its Applications Robert J. Lopez, 1994-08-01 The Maple Summer Workshop and Symposium MSWS 94 reflects the growing community of Maple users around the world This volume contains the contributed papers A careful inspection of author affiliations will reveal that they come from North America Europe and Australia In fact fifteen come from the United States two from Canada one from Australia and nine come from Europe Of European papers two are from Germany two are from the Netherlands two are from Spain and one each is from Switzerland Denmark and the United Kingdom More important than the geographical diversity is the intellectual range of the contributions We begin to see in this collection of works papers in which Maple is used in an increasingly flexible way For example there is an application in computer science that uses Maple as a tool to create a new utility There is an application in abstract algebra where Maple has been used to create new functionalities for computing in a rational function field There are applications to geometrical optics digital signal processing and experimental design Fundamentals of Chemical Reaction Engineering Charles Donald Holland, Rayford Gaines Anthony, 1989 Very Good No Highlights or Markup all pages are intact *Diffusion and Mass Transfer* James S. Vrentas, Christine M. Vrentas, 2016-04-19 A proper understanding of diffusion and mass transfer theory is critical for obtaining correct solutions to many transport problems Diffusion and Mass Transfer presents a comprehensive summary of the theoretical aspects of diffusion and mass transfer and applies that theory to obtain detailed solutions for a large number of important problems Par Environmental Process Analysis Henry V.
