market entry strategies performed by one specific company P G and two different theoretical frameworks namely Resource Based Theory by Grant 1991 and Eclectic paradigm OLI by Dunning 2000 For the purposes of this thesis I concentrate on one of the largest and best known MNEs delivering widely known consumer goods namely Procter and Gamble P G My interest lies in exploring whether P G s market entries in two target markets can be compared to above mentioned theories If not the goal is to understand inconsistencies and factors which influence them Emerging markets have a very unique nature which could be a challenge even for the most successful MNEs like P G Therefore understanding these could be a very complex but unavoidable process in order to achieve long term winning strategy
