Minh Hoang Pham, 2019-09-07. Metro Exodus is a first person story driven shooter based on the Metro novels by Dmitry Glukhovsky. In fact, the story for Metro Exodus was co-developed in collaboration with Glukhovsky. In keeping with its novel origins, the game is divided into a series of chapters with diary entries by the lead character Artyom that recap what just happened and set the tone for what's to come. Do I need to play the previous Metro games? This always comes down to personal preference, but the game does a good job at introducing newcomers to the game as the entire adventure is set in post-apocalyptic Russia and focused on Artyom seeking out a life beyond the Metro, something many of his peers don't even believe exists. Mechanically, you are constantly given on-screen prompts for how to execute the next task. When you reload your game, you're also given tips related to the game which you can refer to at any time from the pause menu. If you're struggling with anything else or just want to improve, our Metro Exodus Wiki Guide will have everything you need. If you've never played a Metro game before, the learning curve and lore is still approachable. And reading the rest of this page will tell you everything you need to know before you get started. On the first pages of this guide, you will find Starting Tips which will make your first hours in the game easier. We have also prepared a lot of information about weapons and combat to help you learn about the most important mechanisms of the game. In this guide, you will also find a section devoted to controls which will make your first moments in the game easier. We have also contained a trophy achievement guide where we have put extra emphasis on the most difficult ones. The game has a lot of important choices, some of them aren't as obvious. All of them are described in our guide. You can decide about the fate of Duke in the Volga, Damir in the Caspian Sea, and Alyosha in Taiga levels. These decisions have an impact on the game's finale which takes place

**Metroid Dread** Mark C Frier,2021-10-09 Metroid Dread is here and it marks the conclusion to the decades long story that s been told across the 2D side of the series dating back to the original Metroid While it may be a landmark game in that sense the actual structure of it is very much still what you d expect from a Metroid as Samus starts out her journey stripped of her powers before slowly and sometimes not so slowly accumulating them again It s typical Metroid fare but whether it s been years since you last touched a game in the series or are making this your starting point we ve got some tips to help ensure your hours spent on the planet ZDR are dread free Dread is a challenging game but in many ways it s not especially punishing The new EMMI enemies that have been featured all over the game s marketing pose a serious threat to Samus but thanks to checkpoints just outside of the zones you inhabit an encounter going awry with one will only set you back a minute or two at most Boss battles can also be quite difficult until you learn their patterns but you can make things easier on yourself by putting in some legwork beforehand With all of that in mind let s dive into the tips

**The Returnal Guide and Walkthrough** Mary Johnson,2021-05-06 In the Returnal there are few things that last forever so players are more likely to stick to those things Unlocking some upgrades like Atropian Blade or Icarian Grapnel gives players a lasting boost to their character so they are very important The same is true with money While all of the player s Obolites will disappear whenever they die and start a new cycle Ether remains whatever may be As a result players can plow Ether and end up with a huge pile although it will take some time However because of its widespread use it may be worth the effort Ether is one of the many currencies in Returnal and with it players can do a lot of things Ether can be used to clean up violence on an object allow it to be taken away without detecting Suit malfunction and can be used to charge Replicators to give players extra life Finally Ether can be sold by Obolites and can be used to launch new products While it s not the fastest way simply checking every biome while playing a game is a great way to find Ether Players will see Ether in its purple light but remember that both parasites and evil elements share this same color Every day Returnal players are given a challenge where they have to clear a particular biome under certain conditions While players can compete with other scouts as part of this simply surviving to the end and clearing the biome is enough to get players a huge amount of Ether Usually daily challenges reward five Ethers
