Ministry Of Finance Mof:

Domination by Region 4 Ramesh Gampat,2023-03-30 This book argues that Guyana presently operates a system of domestic colonialism DM DM builds on institutions established during imperial colonialism strengthened and expanded since independence in 1966 and regionalization which balkanized the country into ten administrative regions Regionalization is a flexible instrument that enables political and economic control with one strengthening the other further empowering Region 4 where the metropole is located and enhancing the dependency of the nine satellite regions Both political parties exploits regionalization when in power the PPP principally through financial strangulation and discrimination the PNC and its various incarnations via political control Regionalization is the symbol of domestic colonialism PPP I last six years of its previous regime 2009 to 2014 allocated an annual average of 11.1 percent of public funds to the regions the APNU AFC 14.1 percent from 2015 to 2020 and PPP II the current PPP administration 12.5 percent during its first two years in office Over the fourteen years from 2009 to 2022 the four largest agencies consumed 42.5 percent of total Central Government expenditure Under PPP I these agencies spent 15 percentage points more on capital costs than they did under APNU AFC However under the latter government they spent more than 10 percentage points on the amorphous category Other Charges These anomalies are hard to explain because there were no functional enhancements or reach of coverage by these agencies Incredibly the Ministry of Finance MoF the largest agency for all but one year spent 46.1 percent of what the Ministry of Public Works incurred on public infrastructure for the entire country An important avenue of political patronage is the employment of contract and temporary workers who are hired outside of the public service legislative framework These workers comprised half of the MoF's workforce over the fourteen year period and the last six years of PPP I for the Ministry of Health that figure is around 37.0 percent for both periods Employment patronage rose during APNU AFC's term of office to 53.8 percent in the MoF and to 41.8 percent in the MoH Employment patronage at these two big agencies was lower during PPP I than the six years of the APNU AFC Government Patronage employment is considerably lower with the PPP II than all previous regimes The strategic deviation is explained by the rise of three separate categories of low and unskilled workers who account for 48.5 percent and 57.7 percent of workforce of the MoF and the MoH respectively These figures are more than 10 percentage points larger than those of all previous administrations In effect the PPP doles out patronage away from hiring outside of the public service legislative framework to hiring within it Not only has the PPP legalized patronage it has also increased it significantly The Political Economy of Underdevelopment and Poverty in Nepal Sri Ram

Poudyal,2023-04-05 This book argues that mainstream economics cannot explain the underdevelopment and poverty of Nepal neither can it be explained in terms of economics alone nor capital inadequacy even as is conventionally believed The author asserts that Nepal's underdevelopment needs to be located in the nature of the state which has been shaped by the collusion of interest among politicians and the resulting bureaucracy triggering the growth of crony capitalism The book presents a

critical and radical analysis of factors that have kept Nepal in a state of underdevelopment and poverty with huge section of the society in underprivileged and deprived socio economic conditions despite six decades of planning seven decades of dependence on foreign aid and numerous political regime changes from the Rana regime for over a century from 1846 1950 through to the republic regime from 2007 onwards To support this argument the book delves into an exploration of growth performance in Nepal government attempts at poverty alleviation foreign aid and its effects in the economy and the nature of the state with a focus on Maoists 10 year rebellion Each chapter presents the existing picture and examines the possible reasons for the failure in achieving the desired results A comparative analysis of Nepal s position with respect to South Asian Association for Regional Cooperation SAARC countries is also presented in a number of chapters The audience for the book will be students academics and researchers and within Nepal itself intellectuals politicians and officials of the National Planning Commission the central bank and other banks and financial institutions

Transforming Central Finance Agencies in Poor Countries World Bank,2013-07-12 This report presents the findings of a study of functions carried out by Central Finance Agencies CFAs that was financed jointly by the Bank Netherlands Partnership Program BNPP the Korean Trust Fund KTF and the World Bank over a three year period from July 2008 to mid 2011 CFAs are not a single organization or entity of government but a group of ministries and agencies of which the ministry of finance MoF is normally the most prominent with collective responsibility for the design and implementation of a country s vast array of financial and fiscal policies and operations Such policies and operations include macro fiscal analysis and forecasting budget preparation and execution accounting and reporting cash and debt management fiscal risk analysis public procurement tax policy and customs revenue administration and the regulation of financial institutions In most developing countries the role of CFAs is the public resources nexus of all issues with a political economy dimension The allocation of roles and responsibilities for central finance functions among the finance ministry itself and other government agencies varies substantially from country to country Chapter one of the reports defines the concept of a CFA which is the array of government organizations including notably the finance ministry that carry out 16 core finance functions of government budget preparation and execution tax policy and revenue administration procurement and so on that are central to the management of public finances Chapter two summarizes the main issues and themes arising from the case studies Substantial progress was made in identifying institutional factors that affect the capabilities of CFAs including their organizational structures linkages with stakeholders availability and use of staff with appropriate skills in economics accountancy and finance Chapter three describes the CFA database and the questionnaire that was used by Country Management Units CMUs and others in compiling it Chapter four presents the main conclusions and operational implications of the study Political economy analysis is not only important but fundamental to successful strengthening of CFAs
