Mischling:

A Holocaust Reader Lucy S. Dawidowicz, 1976 A collection of official and private documents traces the growth of and reveals the Jewish response to German anti-Semitism during World War II

Jews and Intermarriage in Nazi Austria Evan Burr Bukey, 2010-12-31 Evan Burr Bukey explores the experience of intermarried couples marriages with Jewish and non Jewish partners and their children in Vienna after Germany's seizure of Austria in 1938 These families coped with changing regulations that disrupted family life pitted relatives against each other and raised profound questions about religious ethnic and national identity Bukey finds that although intermarried couples lived in a state of fear and anxiety many managed to mitigate delay or even escape Nazi sanctions Drawing on extensive archival research his study reveals how hundreds of them pursued ingenious strategies to preserve their assets to improve their racial status and above all to safeguard the position of their children It also analyzes cases of intermarried partners who chose divorce as well as persons involved in illicit liaisons with non Jews

Jews and Intermarriage in Nazi Austria concludes that although most of Vienna's intermarried Jews survived the Holocaust several hundred Jewish partners were deported to their deaths and children of such couples were frequently subjected to Gestapo harassment

The Palgrave International Handbook of Mixed Racial and Ethnic Classification Zarine L. Rocha, Peter J. Aspinall, 2020-01-03 This handbook provides a global study of the classification of mixed race and ethnicity at the state level bringing together a diverse range of country case studies from around the world The classification of race and ethnicity by the state is a common way to organize and make sense of populations in many countries from the national census and birth and death records to identity cards and household surveys As populations have grown diversified and become increasingly transnational and mobile single and mutually exclusive categories struggle to adequately capture the complexity of identities and heritages in multicultural societies State motivations for classification vary widely and have shifted over time ranging from subjugation and exclusion to remediation and addressing inequalities The chapters in this handbook illustrate how differing histories and contemporary realities have led states to count and classify mixedness in different ways for different reasons This collection will serve as a key reference point on the international classification of mixed race and ethnicity for students and scholars across sociology ethnic and racial studies and public policy as well as policy makers and practitioners
