Nepali Guide For Class 9:

Gender Trouble Makers Jennifer Rothchild, 2007-05-07 International development efforts aimed at improving girls lives and education have been well intended somewhat effective but ultimately short sighted and incomplete This is because international development efforts often operate under a reductive understanding of the term gender and how it influences the lives of girls and boys Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour In particular the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal In developing countries like Nepal promoting access to and participation in existing formal education programme is clearly necessary but it is not in itself sufficient to transform gender power relations in the broader society When gender is properly addressed as a process then all stakeholders involved researchers governmental officials and community members can begin to understand and devise more effective ways to increase both girl and boy students enrollment participation and success in school

A Difficult Transition Mandira Sharma, Seira Tamang, 2016-10-25 The Sexual Violence and Impunity in South Asia research project coordinated by Zubaan and supported by the International Development Research Centre brings together for the first time in the region a vast body of research on this important yet silenced subject Six country volumes one each on Bangladesh Nepal Pakistan Sri Lanka and two on India as well as two standalone volumes comprising over fifty research papers and two book length studies detail the histories of sexual violence and look at the systemic institutional societal individual and community structures that work together to perpetuate impunity for perpetrators The essays in this volume focus on Nepal which though not directly colonized has not remained immune from the influence of colonialism in its neighbourhood In addition to home grown feudal patriarchal structures the writers in this volume clearly demonstrate that it is the larger colonial and post colonial context of the subcontinent that has enabled the structuring of inequalities and power relations in ways that today allow for widespread sexual violence and impunity in the country through legal systems medical regimes and social institutions The period after the 1990 democratic movement the subsequent political transformation in the aftermath of the Maoist insurgency and the writing of the new constitution has seen an increase in public discussion about sexual violence The State has brought in a slew of legislation and action plans to address this problem And yet impunity for perpetrators remains intact and justice elusive What are the structures that enable such impunity What can be done to radically transform these How must States understand the search for justice for victims and survivors of sexual violence This volume addresses these and related issues Published by Zubaan *Paperbound Books in Print* ,1991
