***TUCK EVERLASTING***

Babbitt, Natalie. New York: Farrar, Straus and Giroux, 1975. [First Square Fish Edition, 2007.]

**Herber Readiness - Teacher Instructions**

**Context:** The questions in this Herber Readiness activity are intended to foreshadow some of the themes that the novel addresses, helping students access any schema they may have about these themes before encountering them in the novel.

**Purpose:** As a pre-reading strategy, this activity is designed to be conducted before reading any of the novel and can help students feel engaged in the text as they read because they will have recently thought about some of the issues the text brings up. As a post-reading strategy, it can help students see how reading texts can affect what they think about certain issues.

**Materials Needed:**

- ▲ Readiness Chart with Pre-Reading Ideas
- ▲ Five posters with the five ideas from the chart written at the top

**Pre-Reading Time Allotted:** 30 minutes

**Post-Reading Time Allotted:** 50 minutes

**Directions for Pre-reading:**

1. Explain to students that you are starting a new novel and have an activity that will introduce some of the ideas and themes that the novel deals with.
2. Distribute the handout to each student.
3. Have each student answer the questions individually. (5-7 minutes)
4. Have five posters attached to the walls of the classroom, each with one of the statements at the top. Tell the class that you will be having a "silent discussion" about the statements. Each student will work his or her way around the room, adding one comment to each poster. (7-10 minutes)
5. When all students have had an opportunity to write, have them walk around again reading their peers' comments. (5-7 minutes)

**Directions for Post-reading:** (This activity will take place after the first-draft reading and before the second-draft reading.)

1. Distribute a fresh copy of the pre-reading handout.
2. Have students respond again to the questions - individually. (7 minutes)
3. Distribute students' original responses from the pre-reading activity. (2 minutes)
4. Give students time to compare. (3 minutes)
5. Give each student three tickets. Have them put their names or initials on them. (3 minutes)
6. Have students form a discussion circle. Each student, in order to earn full participation points for the activity will need to participate in the ensuing discussion at least three times, placing their

Sometimes Reading is Hard Robin Bright, 2021-08-24 When students say that reading is boring, difficult, overwhelming, or they cannot find a good book, it is almost impossible to sell them on the idea that reading is fun and worthwhile. *Sometimes Reading is Hard* shows teachers how to develop the skills students need to be successful and how to cultivate passionate lifelong readers. An intriguing look at the science of reading, the book helps teachers understand the foundations upon which language and reading are learned so they can make their own good decisions about programs, resources, strategies, and activities. Classroom vignettes, promising practices, and step-by-step activities illustrate how teachers can weave teaching the skills of decoding, vocabulary, comprehension, and fluency with real reasons to read. This hands-on teacher resource shows what a comprehensive research-based reading program looks like in action. *Teaching English Language Learners* Michaela Colombo, Dana Furbush, 2009 This book prepares mainstream teachers to provide content instruction to English language learners. **How to Differentiate Instruction in Academically Diverse Classrooms** Carol Ann

Tomlinson, 2017-03-22 First published in 1995 as *How to Differentiate Instruction in Mixed Ability Classrooms*, this new edition reflects evolving best practices, practitioners' experience, and Tomlinson's ongoing thinking about how to help all students access high-quality curriculum, engage in meaningful learning experiences, and feel safe and valued in their school. Written as a practical guide for teachers, this expanded 3rd edition of Carol Ann Tomlinson's groundbreaking work covers the fundamentals of differentiation and provides additional guidelines and new strategies for how to go about it. You'll learn: What differentiation is and why it's essential; How to set up the flexible and supportive learning environment that promotes success; How to manage a differentiated classroom; How to plan lessons differentiated by readiness, interest, and learning profile; How to differentiate content, process, and products; How to prepare students, parents, and yourself for the challenge of differentiation. We differentiate instruction to honor the reality of the students we teach. They are energetic and outgoing. They are quiet and curious. They are confident and self-doubting. They are interested in a thousand things and deeply immersed in a particular topic. They are academically advanced and kids in the middle and struggling due to cognitive
