*Modern Catholic Social Teaching* Joe Holland,2003 The impact of the industrial revolution on the social structures of industrialized nations posed a difficult challenge to the Catholic Church and its Popes In the struggle for human and economic status should the Church side with the new working class or with capitalist barons who along with the old aristocracy identified themselves as upholders of Christian civilization In this history of papal social teaching Joe Holland tells how the popes at first backed the status quo Then with the accession of Pope Leo XIII in 1878 a seismic shift took place Leo's encyclical *Rerum novarum* was the first authoritative Church voice to declare that laboring people have rights the right to fair wages to decent living conditions the right to organize labor unions and even to strike Henceforth the notion of civilization at least for the Church would be grounded in the lives and aspirations of working people *Modern Catholic Social Teaching* traces this historic shift as it played out in the writings of Leo and the popes who followed him Pius X Benedict XV Pius XI and Pius XII These popes supported Leo's encyclical and even elaborated it as European history experienced the emergent

Nepstad introduces key papal encyclicals and other church documents showing how lay Catholics in the United States have put these ideas into practice through a creative and sometimes provocative political engagement. Nepstad also explores how these progressive movements have pressured the religious hierarchy to respond to pressing social issues such as women's ordination, conscription, and the morality of nuclear deterrence policies. Catholic Social Activism vividly depicts how these progressive movements have helped to shape the religious landscape of the United States and how they have provoked controversy and debate among Catholics and non-Catholics alike.

**Catholics and Everyday Life in Macau** Chen Hon-Fai, 2017-03-16 Catholicism has had an important place in Macau since the earliest days of Portuguese colonization in the sixteenth century. This book based on extensive original research including in depth interviews examines in detail the everyday life of Catholics in Macau at present. It outlines the tremendous societal pressures which Macau is currently undergoing: sovereignty handover and its consequences, the growth of casinos and tourism, and the transformation of a serene and somewhat obscure colony into a vibrantly developing city. It shows how although the formal structures of Catholicism no longer share in rule by the colonial power and although formal religious observance is declining nevertheless the personal piety and ethical religious outlook of individual Catholics continue to be strong and have a huge and possibly increasing impact on public life through the application of personal religious ethics to issues of human rights and social justice and in the fields of education and social services.

Essential Catholic Social Thought Bernard V. Brady, 2008 This book provides a broad view of the basic features of the rich tradition of Catholic reflection and action on social issues. In the words of Brady the Catholic social tradition is about action and contemplation. It calls on persons to take responsibility for themselves and for their neighbors. It aims to reach the hearts and the minds of persons. It seeks personal conversion and social transformation. Written in an accessible style and designed for a one semester course it presents the principles of Catholic social thought along with their historical development and abridged excerpts from relevant documents. Each chapter includes study discussion questions and begins and ends with a traditional Catholic prayer.
