

Chapter 13 Section 1

I. Why were settlers and trappers attracted to Oregon and the Far West? Settlers and Trappers Were Attracted to Oregon

Oregon Country—a huge region west of the Rocky Mountains that included present-day Oregon, Washington, Idaho, and parts of Wyoming, Montana, and western Canada.

- Good farmland along the Pacific coast attracted farmers.
- Fertile soil
- Mild temperatures year round
- Plentiful rainfall
- Forests further inland and in the Rocky Mountains attracted fur trappers.
- Beavers and other fur-bearing animals

At first, four countries claimed Oregon—United States, Great Britain, Spain, and Russia. Later, Spain and Russia dropped their claims.

II. How did mountain men help explore lands in the Far West? New England merchants stopped along the Oregon coast to buy furs to sell in China.

- The mountain men: These rugged individualists—*people who follow their own independent course in life*—led dangerous lives. They faced long, cold winters, wild animals, and hunger. Often they learned trapping and hunting skills from Indians.
- The fur trade: During fall and spring, mountain men tended their traps. Then in July, many mountain men headed for a rendezvous—a French word meaning “*get-together*”—at a place chosen the year before. There they met with traders, who bought the furs.
- Famous mountain men: In their search for furs, mountain men explored parts of the West, then showed settlers the way. Jedediah Smith, Manuel Lisa, and James Beckwourth were some well-known mountain men.

III. What role did missionaries play in the settlement of Oregon?

- The first white Americans to settle permanently in Oregon Country were missionaries, including Marcus and Narcissa Whitman.
- The Whitmans built a mission near the Columbia River. They worked with the Cayuse Indians. Soon other missionaries and settlers joined them.
- Missionaries attracted more settlers when they sent glowing reports about Oregon to friends and family in the East.
- Some settlers carried diseases that struck the Indians. A measles outbreak killed many Cayuses.
- Indians, angry over the spread of disease attacked the Whitman’s mission and killed the Whitmans and 12 others.

Chapter 12 Section 1 World History:

World History Teaching in Asia Shingo Minamizuka, 2019-03-30 *World History Teaching in Asia* is the first broad survey of the content and approaches used to teach world history in secondary schools and colleges in Asia. The collection has been crafted by scholars and educators whose goal was to shed light on the importance of history education and to foster understanding of and between Asian countries. These essays show how the teaching of world history in Asian countries has developed since World War II with many interesting parallels including the issue of Eurocentrism but also distinctive national trends and considerable changes over time. At a time when many Asian countries are making great strides in education, this study of history education in Asia will be of real interest to educators, history scholars, and policy makers worldwide.

Philosophy of Development A.W. van Haaften, Michiel Korthals, T.E. Wren, 2013-04-17 *Philosophy of development* is a fascinating area of research at the intersection of philosophy, psychology, and education. This book is unique in that it combines a broad sketch of contemporary developmental theory with detailed discussions of its central issues in order to construct a general framework for understanding and analyzing theories of individual and collective development in various domains ranging from cognitive and moral development to developments in art. Special attention is also given to the rich relations between conceptual development and education.

History Peter Claus, John Marriott, 2014-01-14 Why should history students care about theory? What relevance does it have to the proper role of the historian? Historiography and historical theory are often perceived as complex subjects which many history students find frustrating and difficult. Philosophical approaches, postmodernism, anthropology, feminism, or Marxism can seem arcane and abstract, and students often struggle to apply these ideas in practice. Starting from the premise that historical theory and historiography are fascinating and exciting topics to study, Claus and Marriott guide the student through the various historical theories and approaches in a balanced, comprehensive, and engaging way. Packed with intriguing anecdotes from all periods of history and supported by primary extracts from original historical writings, *History: An Introduction to Theory, Method, and Practice* is the student-friendly text which demystifies the subject with clarity and verve. Key features: Written in a clear and witty way. Presents a balanced view of the subject rather than the polemical view of one historian. Comprehensive: covers the whole range of topics taught on historiography and historical theory courses in suitable depth. Full of examples from different historical approaches from social, cultural, and political history to gender, economic, and world history. Covers a wide chronological breadth of examples from the ancient and medieval worlds to the twentieth century. Shows how students can engage with the theories covered in each chapter and apply them to their own studies via the 'In Practice' feature at the end of each chapter. Includes Discussion Documents: numerous extracts from the primary historiographical texts for students to read and reflect upon.
