### Lesson 3 Africa

#### Review Questions

**Directions:** Read each main idea. Use your textbook to supply the details that support or explain each main idea.

- A. Main Idea:** Free from colonial rule, many African nations faced serious political, economic, social, and health challenges. Apartheid ended in South Africa, and Nelson Mandela became the country's first black president.
- Detail:** The Charter of the United Nations states that Colonial people have the right to Self-determination.
  - Detail:** South African leader Nelson Mandela and the African National Congress opposed white rule and sought social and political reforms.
  - Detail:** Some African nations were drawn into proxy wars as the United States and the Soviet Union took opposing sides in African political struggles during the Cold War.
  - Detail:** African nations suffered from drought, disease, wars, corruption, overpopulation, and a reliance on single-crop exports and foreign investment.
  - Detail:** Overcrowding and pollution have become major problems in Africa; the HIV/AIDS epidemic is a worldwide problem but has hit Africa south of the Sahara hardest.
- B. Main Idea:** Africa is a study in contrasts. Old and new, native and foreign, live side by side. One result is a constant tension between traditional ways and Western culture.
- Detail:** About 60% percent of Africa's population live outside cities; they still live much as their ancestors did, in thatched dwellings without plumbing or electricity.
  - Detail:** These rural dwellers are dependent upon nature for their livelihoods. Weather conditions such as drought and flooding can sometimes force them to migrate to urban areas in search of work.
  - Detail:** Many urban people see rural dwellers as backward, while rural people see cities as corruptive and prize traditional African values.
  - Detail:** Most African women can vote and hold office, but they remain in low-paid positions and are subject to traditions like arranged marriages.
