- power is based on the target's perception that the power holder controls (i.e., possesses, has access to, or regulates) a valuable resource that can help the target achieve their goals.

3. Power comes from a symmetric dependence

- power involves asymmetric (unequal) dependence of one party on another party

Exhibit 10.1 Dependent Model of Power

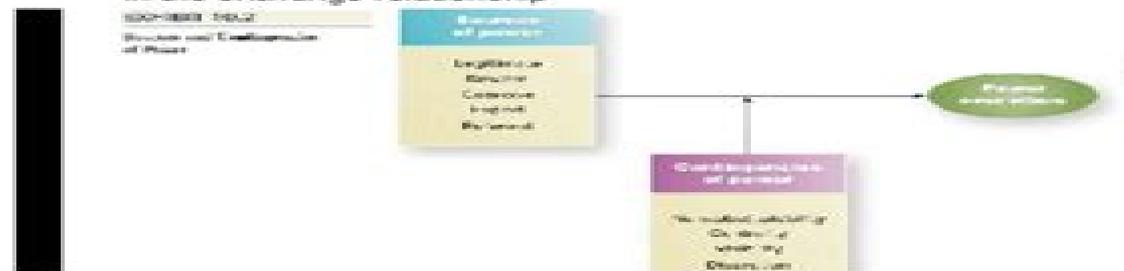

The dependence model of power

- reveals only the core features of power dynamics between people and work units in organizations.

Countervailing power

- the capacity of a person, team, or organization to keep a more powerful person or group in the exchange relationship
