DiBacco,1991-07 *American Foreign Relations Since 1600* Robert L. Beisner,2003 A thorough update of the standard bibliography of American foreign relations literature from colonial times to the present day America has formed alliances exchanged diplomats traded goods and services and fought wars with nations on every continent but Antarctica And people have written books articles reports and papers by the thousands on these subjects In American Foreign Relations since 1600 the 2002 president of the Society for Historians of American Foreign Relations

Robert Beisner has worked with members of SHAFR to compile the most exhaustive survey of writing on American foreign relations ever published. Covering 400 years of American history, his team of editors—all top experts in the field—have referenced and annotated nearly 20,000 published and nonpublished works. It's all here, from the Mayflower Compact to the My Lai massacre, from the War of 1812 to the war on terrorism, from the pre-Revolutionary era to the post-Cold War world. Nearly 20,000 fully annotated bibliographical entries on topics such as the Mexican Revolution, pan-Americanism, wartime diplomacy, the German threat, and more. A preface clearly outlining the updated features of the book. Three analytical indexes to guide users to entry information, contributors, and significant individuals. Biographical studies on individuals such as John Barrett, William Jennings Bryan, and Theodore Roosevelt. *America and Its People*, Kate Brown, Theodore E. Brown, 1989

The Cold War and After Marc Trachtenberg, 2012. A new way of looking at international relations from a leading expert in the field. What makes for war or for a stable international system? Are there general principles that should govern foreign policy? In *The Cold War and After*, Marc Trachtenberg, a leading historian of international relations, explores how historical work can throw light on these questions. The essays in this book deal with specific problems with such matters as nuclear strategy and U.S. European relations. But Trachtenberg's main goal is to show how, in practice, a certain type of scholarly work can be done. He demonstrates how, in studying international politics, the conceptual and empirical sides of the analysis can be made to connect with each other and how historical, theoretical, and even policy issues can be tied together in an intellectually respectable way. These essays address a wide variety of topics, from theoretical and policy issues such as the question of preventive war and the problem of international order to more historical subjects, for example, American policy on Eastern Europe in 1945 and Franco-American relations during the Nixon-Pompidou period. But in each case, the aim is to show how a theoretical perspective can be brought to bear on the analysis of historical issues and how historical analysis can shed light on basic conceptual problems. *The Evangelist*, 1899
