1. So they can understand the age and history of Earth.
2. It's like what happened in the past is just like what is happening now man.
3. According to the law, a rock layer is always younger than the rock layer below it if the layers are undisturbed.
4. An unconformity is a break in the rock record; a nonconformity is a kind of unconformity in which metamorphic or igneous rock layers are overlain by sedimentary rock layers.
5. In an angular unconformity, tilted rock layers are overlain by horizontal rock layer. In a disconformity, the rock layers above and below the unconformity are parallel.
6. The law of crosscutting relationships helps scientists understand that a body of rock or fault is always younger than any other body of rock that it cuts through.
