God the Creator Robert Cummings Neville,1992-02-13 God the Creator provides a detailed exposition of a conception of God as the creator of everything determinate It does not defend an established conception such as the Thomist the Calvinist or the Process theological idea but rather elaborates the ancient theme of creation ex nihilo in a new form appropriate to the contemporary world Part one is a rigorous philosophical development of the idea of God as creator ex nihilo arguing that an adequate solution to the problem of the one and the many demands such a conception This part includes a dialectical examination of contemporary and classical theories of being Part two asks how one can have knowledge of the kind of God described previously it deals with experience analogy and dialectic Part three applies the conception developed in part one to fundamental religious conceptions such as the object of worship the nature of religion and the practices of private and public religious life It presents theories arising from the conception of creation ex nihilo for the interpretation of religious concern conversion faith certainty solitude bliss service liturgy providence evangelism dedication reconciliation brotherhood discipline the integration of public and private religion relative to other dimensions of life freedom love and glory Though the language arises from the Christian tradition and expresses an orthodox strand of that religion the argument weaves throughout the concerns of many world religions **Ryan V. High Wycombe presents the history of an English community which in the space of some seven hundred years grew up flourished and declined and eventually superseded Even by the standards of the Middle Ages Wycombe was a small town and remained so until very recently At the beginning of the 19th century after a hundred years of steady growth it still contained only about 450 houses Yet though small it was for centuries the only independent borough in Buckinghamshire John Hampden was closely associated with Wycombe The Earl of Shelburne who negotiated peace with the American colonies was an alderman of the borough Here Disraeli made his first attempts to enter parliament and lived for many years nearby at Bradenham and Hughenden The history of Wycombe is the story of a small but vigorous and independent community as rich in character as any biography of an English eccentric This is an interesting read for scholars of British history [The Index Library](#) British Record Society,1925 For list of publications see covers pt 28 30 April June 1890 p x pt 82 December 1900 p iii iv [Index-guide to Library of the World's Best Literature, Ancient and Modern](#) Edward Cornelius Towne,1899 **Section one (-thirteen, fifteen) of Kelly's Post office London and suburban local directories** Kelly's directories, ltd,1885 *Census of England and Wales, 1871* Great Britain.
