

LAB 7: TOPOGRAPHIC MAPS

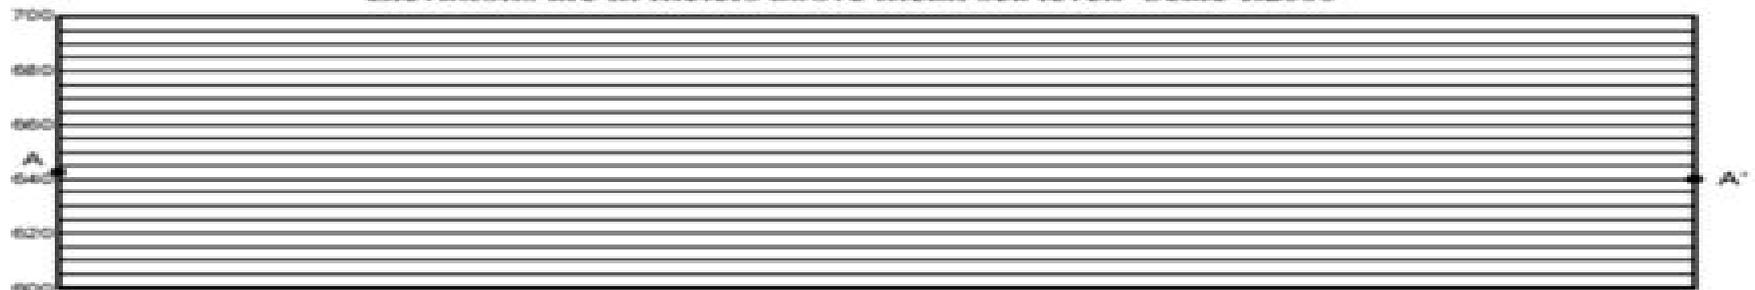

Due: Monday, April 12

PART I: CONTOURING AND PROFILES (20 PTS)

- (10 pts) Contour this area map using a 5 meter contour interval. Remember some fundamental rules of contour lines, as well as some important characteristics of rivers:
 - Contour lines connect points of equal elevation. Therefore they can never cross.
 - Rule of V's: Where contour lines cross river valleys, the lines "V" upstream.
 - Tributary streams merge in the downstream direction. They rarely split apart.
- (2 pts) With an arrow, show which direction the stream flows as it exits the map.
- (8 pts) Construct a topographic profile from point A to point A'. Use the grid provided below the map. Project each intersection of the cross section line (drawn from A to A') and a contour line onto the correct elevation line in the profile.

Elevations are in meters above mean sea level. Scale 1:2000
