LESSON 2 ■ ACTIVITY 33

Answer for Changes in Supply

Part a

Look at the two separate markets in Figure 13.2 and assume the demand curve of each market is downward-sloping. Use the blue arrows in the right of the graph to indicate whether the market will have a change in supply. Use the same colors to mark whether the change is an increase (red) or a decrease (green). In the third column, describe how the supply curve shifts (right or left) and how it relates to the corresponding event. Use Figure 13.2 to help you. Always start at curve S_1 and move only one market at a time. The graph also implies that the supply of one item does not change.
