It discusses above all the relationship between the communist state's policies to stimulate creative industries, concepts of creativity and aesthetics, and the creation and maintenance through changing circumstances of a national style by Chinese animators. The book also examines the relationship between Chinese animation, changing technologies, including the rise first of television and then of digital media, and youth culture, demonstrating the importance of Chinese animation in Chinese youth culture in the digital age. **Routledge Handbook of Japanese Cinema** Joanne Bernardi, Shota T. Ogawa, 2020-08-09 The *Routledge Handbook of Japanese Cinema* provides a timely and expansive overview of Japanese cinema today through cutting-edge scholarship that reflects the hybridity of approaches defining the field. The volume's twenty-one chapters represent work by authors with diverse backgrounds and expertise, recasting traditional questions of authorship, genre, and industry in broad conceptual frameworks such as gender, media theory, archive studies, and neoliberalism. The volume is divided into four parts, each representing an emergent area of inquiry: Decentering Classical Cinema; Questions of Industry; Intermedia as an Approach; The Object Life of Film. This is the first anthology of Japanese cinema scholarship to span the temporal framework of 200 years, from the vibrant magic lantern culture of the nineteenth century through to the formation of the film industry in the twentieth century and culminating in cinema's migration to gaming, surveillance, video, and other new media platforms of the twenty-first century. This handbook will prove a useful resource to students and scholars of Japanese studies, film studies, and cultural studies more broadly. **Chinese Animation and Socialism**, 2021-10-05 Please visit our blog to read an interview with Daisy Yan Du.
