Auer,Wolfgang Pachatz,Tiia Rüttnann,2023-03-21 We are currently witnessing a significant transformation in the development of education on all levels and especially in post secondary education To face these challenges higher education must find innovative ways to quickly respond to these new needs These were the aims connected with the 25th International Conference on Interactive Collaborative Learning ICL2022 which was held in Vienna Austria from September 27 to 30 2022 Since its beginning in 1998 this conference is devoted to new approaches in learning with a focus

on collaborative learning in higher education This book contains papers in the fields of Collaborative Learning Digital Transition in Education Technology Enhanced Learning Advances in Machine and Technology Enhanced Learning Educational Virtual Environments Flipped Classrooms Games in Engineering Education Entrepreneurship in Engineering Education Interested readership includes policymakers academics educators researchers in pedagogy and learning theory school teachers the learning industry further and continuing education lecturers etc Movies in the Age of Obama David Garrett Izzo,2014-08-26 The historic election of Barack Obama to the presidency of the United States had a significant impact on both America and the world at large By voting an African American into the highest office those who elected Obama did not necessarily look past race but rather didn't let race prevent them from casting their ballots in his favor In addition to reflecting the changing political climate Obama's presidency also spurred a cultural shift notably in music television and film In Movies in the Age of Obama: The Era of Post-Racial and Neo-Racist Cinema David Garrett Izzo presents a varied collection of essays that examine films produced since the 2008 election The contributors to these essays comment on a number of films in which race and otherness are pivotal elements In addition to discussing such films as *Beasts of the Southern Wild* *Black Dynamite* *The Blind Side* *The Butler* *Django Unchained* *The Help* and *Invictus* this collection also includes essays that probe racial elements in *The Great Gatsby* *The Hunger Games* and *The Mist* The volume concludes with several essays that examine the 2013 Academy Award winner for best picture *12 Years a Slave* Though Obama's election may have been the main impetus for a resurgence of black films this development is a bit more complicated Movie-makers have long responded to the changing times so it is inevitable that the Obama presidency would spark an increase in films that comment either subtly or overtly on the current cultural climate By looking at the issue these films address Movies in the Age of Obama will be of value to film scholars of course but also to those interested in other disciplines including history politics and cultural studies

Costs of Disarmament Susan Willett,2003 This is the third in a series of books that look at the costs and benefits of arms control and disarmament It looks at what happens when there are no controls i.e. the costs of an arms race by examining the case of India and Pakistan It concludes that the high levels of military expenditure have led to increasing tension and insecurity whilst the costs of the programmes have retarded the pace of development Pakistan in particular has many of the characteristics of a failing state The book concludes with some suggestions as to how India and Pakistan could break out of their destructive cycle
