

The background of the cover is a photograph of a rural landscape. In the foreground, several sheep are grazing in a green field. There are pine trees scattered throughout the scene, with some in the mid-ground and others in the background. The lighting is natural, suggesting a bright day.

Agroforestry In Europe Current Status And Future Prospects 1st Edition:

Innovative Approaches and Applications for Sustainable Rural Development Alexandros Theodoridis, Athanasios Ragkos, Michail Salampasis, 2019-01-16 This book presents selected papers from the 8th International Conference on Information and Communication Technologies in Agriculture Food and Environment HAICTA 2017 which examine sustainable rural development in the context of environmental economic and the socio cultural dimension This book raises awareness of the importance of sustainable management in agriculture using examples of actual industry cases sustainable management practices new forms of rural cooperation and entrepreneurship *Agroforestry in Europe* Antonio Rigueiro-Rodríguez, Jim McAdam, María Rosa Mosquera-Losada, 2008-11-09 Agroforestry has come of age during the past three decades The age old practice of growing trees and crops and sometimes animals in interacting combinations that has been ignored in the single commodity oriented agricultural and forestry development paradigms has been brought into the realm of modern land use Today agroforestry is well on its way to becoming a specialized science at a level similar to those of crop science and forestry science To most land use experts however agroforestry has a tropical connotation They consider agroforestry as something that can and can only be identified with the tropics That is a wrong perception While it is true that the tropics compared to the temperate regions have a wider array of agroforestry systems and hold greater promise for potential agroforestry interventions it is also true that agroforestry has several opportunities in the temperate regions too Indeed the role of agroforestry is now recognized in Europe as exemplified by this book North America and elsewhere in the temperate zone Current interest in ecosystem management in industrialized countries strongly suggests that there is a need to embrace and apply agroforestry principles to help mitigate the environmental problems caused or exacerbated by commercial agricultural and forestry production enterprises

Fostering Arid Lands Agriculture in the Face of Climate Change Majda Khalil Suleiman, Shabbir Ahmad Shahid, 2026-01-14 This book is the result of a collaborative effort among internationally renowned multidisciplinary scientists who recognize that arid lands are particularly vulnerable to the impacts of climate change These impacts are expected to significantly affect the productive capacity of arid regions thereby posing challenges to food security Furthermore the contributors acknowledge that under current conditions and the prevailing pace of progress achieving the United Nations Sustainable Development Goal SDG 2 of ending hunger by 2030 will be highly challenging In response to these pressing issues the editors took the initiative to invite distinguished scientists to contribute manuscripts that compile the latest knowledge on multidisciplinary and cross sectoral aspects of climate change impacts on food security with a focus on countries in arid regions The information presented in this book is intended to benefit a wide range of global stakeholders including students farmers researchers extension workers and policymakers by supporting the development of strategies to mitigate climate change impacts and adopt science based adaptation practices These efforts are critical to enhancing the resilience of arid lands and advancing progress toward SDG 2 The book is

organized into five sections covering key topics natural resources management and governance agriculture and food security mitigation and adaptation synergies poultry and aquaculture and agricultural pests and soil microbial populations This comprehensive compilation serves as a unique scientific resource providing up to date information on the global challenges faced by arid lands in the context of climate change along with strategies for mitigation and adaptation to ensure food security

Alternative Functions of Grassland European Grassland Federation. International Symposium,2009 Non marketable functions of grassland Alternative use of grassland Methods of grassland preservation

Trees, Forested Landscapes and Grazing Animals Ian D. Rotherham,2013-03-05 In this comprehensive book the critical components of the European landscape forest parkland and other grazed landscapes with trees are addressed The book considers the history of grazed treed landscapes of large grazing herbivores in Europe and the implications of the past in shaping our environment today and in the future Debates on the types of anciently grazed landscapes in Europe and what they tell us about past and present ecology have been especially topical and controversial recently This treatment brings the current discussions and the latest research to a much wider audience The book breaks new ground in broadening the scope of wood pasture and woodland research to address sites and ecologies that have previously been overlooked but which hold potential keys to understanding landscape dynamics Eminent contributors including Oliver Rackham and Frans Vera present a text which addresses the importance of history in understanding the past landscape and the relevance of historical ecology and landscape studies in providing a future vision

Improving governance of pastoral lands. Governance of Tenure Technical Guide No. 6 Food and Agriculture Organization of the United Nations,2018-06-04 This guide shares a number of initiatives and studies from recent years that have shone a light on pastoral governance and land tenure on the inherent challenges pastoralists face the shortcomings of governments in securing pastoral tenure and emerging examples of success and progress from around the world This guide proposes solutions to securing pastoral governance and tenure without undermining the inherent complexity of customary arrangements
