baseball catcher is a familiar but uninspiring figure Decker out in the so called tools of ignorance he stolidly goes about his
duty without attracting much attention But it wasn't always that way as Peter Morris shows in this lively and original study In
baseball's early days catchers stood a safe distance behind the batter Then the introduction of the curveball in the 1870s led
them to move up directly behind home plate even though they still wore no gloves or protective equipment Extraordinary
courage became the catcher's most notable requirement but the new positioning also demanded that the catcher have
lightning fast reflexes great hands and a cannon for a throwing arm *Baseball Scorecards* Baseball Scorecard
