Michael Morpurgo

Beowulf Michael Morpurgo:

Beowulf Michael Morpurgo,2015-04-03 An illustrated retelling of the oldest English epic Beowulf in which a Norse hero saves Denmark's royal house from monsters returns home to become his own people's greatest king and then faces a murderous dragon to protect them

Beowulf Jodi-Anne George,2009-12-09 Of unknown authorship Beowulf is an Old English epic poem which incites contentious debate and has been endlessly interpreted over the centuries This Reader's Guide provides a much needed overview of the large body of Beowulf criticism moving from 18th century reactions to 21st century responses Jodi Ann George Charts the changes in critical trends and theoretical approaches applied to the poem Includes discussion of J R R Tolkien's pioneering 1936 lecture on Beowulf and Seamus Heaney's recent translation Analyses Beowulf in popular culture addressing the poem's life in film versions graphic novels music and comics Clear and engaging this is an indispensable introductory guide to a widely studied and enigmatic work which continues to fascinate readers everywhere

Beowulf's Popular Afterlife in Literature, Comic Books, and Film Kathleen Forni,2018-08-06 Beowulf's presence on the popular cultural radar has increased in the past two decades coincident with cultural crisis and change Why By way of a fusion of cultural studies adaptation theory and monster theory Beowulf's Popular Afterlife examines a wide range of Anglo American retellings and appropriations found in literary texts comic books and film The most remarkable feature of popular adaptations of the poem is that its monsters frequently victims of organized militarism male aggression or social injustice are provided with strong motives for their retaliatory brutality Popular adaptations invert the heroic ideology of the poem and monsters are not only created by powerful men but are projections of their own pathological behavior At the same time there is no question that the monsters created by human malfeasance must be eradicated

Digital Gaming Re-imagines the Middle Ages Daniel T. Kline,2013-09-11 Digital gaming's cultural significance is often minimized much in the same way that the Middle Ages are discounted as the backward and childish precursor to the modern period Digital Gaming Reimagines the Middle Ages challenges both perceptions by examining how the Middle Ages have persisted into the contemporary world via digital games as well as analyzing how digital gaming translates adapts and remediates medieval stories themes characters and tropes in interactive electronic environments At the same time the Middle Ages are reinterpreted according to contemporary concerns and conflicts in all their complexity Rather than a distinct time in the past the Middle Ages form a space in which theory and narrative gaming and textuality identity and society are remediated and reimagined Together the essays demonstrate that while having its roots firmly in narrative traditions neomedieval gaming where neomedievalism no longer negotiates with any reality beyond itself and other medievalisms creates cultural palimpsests multiply layered trans temporal artifacts Digital Gaming Re imagines the Middle Ages demonstrates that the medieval is more than just a stockpile of historically static facts but is a living subversive presence in contemporary culture

Global Perspectives on Death in Children's Literature Lesley D. Clement,Leyli Jamali,2015-07-30 This volume visits

death in children's literature from around the world making a substantial contribution to the dialogue between the expanding fields of Childhood Studies, Children's Literature and Death Studies. Considering both textual and pictorial representations of death, contributors focus on the topic of death in children's literature as a physical reality, a philosophical concept, a psychologically challenging adjustment, and/or a social construct. Essays covering literature from the US, Mexico, El Salvador, Guatemala, Canada, the UK, Sweden, Germany, Poland, Bulgaria, Brazil, Czechoslovakia, the Soviet Union, India, and Iran display a diverse range of theoretical and cultural perspectives. Carefully organized sections interrogate how classic texts have been adapted for the twenty-first century, how death has been politicized, ritualized, or metaphorized, and visual strategies for representing death and how death has been represented within the context of play. Asking how different cultures present the concept of death to children, this volume is the first to bring together a global range of perspective on death in children's literature and will be a valuable contribution to an array of disciplines.
