Government 3.0 - Next Generation Government Technology Infrastructure and Services

Adegboyega Ojo, Jeremy Millard, 2017-10-26 Historically technological change has had significant effect on the locus of administrative activity cost of carrying out administrative tasks the skill sets needed by officials to effectively function rules and regulations and the types of interactions citizens have with their public authorities Next generation Public Sector Innovation will be Government 3 0 powered by innovations related to Open and big data administrative and business process management Internet of Things and blockchains for public sector innovation to drive improvements in service delivery decision and policy making and resource management This book provides fresh insights into this transformation while also examining possible negative side effects of the increasing openness of governments through the adoption of these new innovations The goal is for technology policy makers to engage with the visions of Government 3 0 Researchers should be able to critically examine some of the innovations described in the book as the basis for developing research agendas related to challenges associated with the adoption and use of some of the associated technologies The book serves as a rich source of materials from leading experts in the field that enables Public administration practitioners to better understand how these

new technologies impact traditional public administration paradigms The book is suitable for graduate courses in Public Sector Innovation Innovation in Public Administration E Government and Information Systems Public sector technology policy makers e government information systems and public administration researchers and practitioners should all benefit from reading this book

Impact of Digitalization on Reporting, Tax Avoidance, Accounting, and Green Finance Alqatan, Ahmad, Hussainey, Khaled, Hamed, Mounira, Benameur, Kameleddine, 2024-04-01 Digital era reporting undergoes a seismic shift as automation takes center stage The transition from manual reporting to real time automated systems enhances precision and efficiency and reduces errors empowering decision makers However this era of digital reporting brings forth a new set of challenges from data security and privacy concerns to the imperative need for robust cybersecurity measures

Impact of Digitalization on Reporting Tax Avoidance Accounting and Green Finance delves into this transformative wave comprehensively exploring its consequences on these critical domains The book meticulously dissects both the positive and negative repercussions encapsulating the challenges and opportunities that arise in this era of digital metamorphosis

Navigating tax avoidance in a digitalized world unveils a complex dynamic Digitalization on the one hand empowers tax authorities to access and analyze vast datasets making it challenging for businesses to engage in tax evasion On the other hand sophisticated digital tools provide fertile ground for corporations to devise intricate tax avoidance schemes Striking a balance becomes paramount necessitating regulatory measures and international cooperation while addressing ethical dimensions in leveraging technology for tax strategies The book offers a nuanced understanding of the intricate relationship between digitalization and these critical domains from business professionals and financial analysts to regulatory bodies and sustainability advocates

Accounting Disrupted Al Bhimani, 2021-02-04 *Accounting Disrupted* How Digitalization is changing Finance delivers a powerful analysis of the new technological forces buffeting the accounting profession and identifies key pathways to responding to the challenges Al Bhimani distinguished accountant academic and author shows readers how established business fundamentals are being eclipsed and that accounting has not been spared You ll learn How the new realities of digitalization including big data and AI are affecting audit work and financial management practices How learning fast about and from more diverse data sources is essential to the new accounting environment Why accounting information must start to speak to what will take place rather than about financial activities that have occurred What finance must do in a world of changing risks data growth fast digitization and increased regulation The author makes a compelling case that accounting now faces a crunch it needs to reshape itself from the core because conventional financial analysis is proving too cumbersome and slow for executives in digitalized organizations In a straightforward and illustrated style packed with case studies and practical examples he shows readers how big data blockchain robotic process automation and artificial intelligence can help accountants adapt to new realities Perfect for finance leaders in both the private and public sectors

Accounting Disrupted also belongs on the bookshelves of accounting students who wish to better prepare for the

technological and professional environment in which they'll shortly find themselves

New Maritime Business

Byoung-Wook Ko, Dong-Wook Song, 2021-11-18 This book provides a response to the unexpected challenges imposed on every aspect of today's maritime business. All chapters of this book are concerned with the single challenge facing the maritime business world that is uncertainty. Each chapter deals with a specific area of the maritime business community in an effort to better understand the complicated markets to seek for a solution of economic or financial sustainability under the pressure of climate changes to discuss technology as an option for the future and finally to show how to utilise the big data set for better informed decision and policymaking that used to be unfeasible in terms of scale and capacity. It is hoped that all those endeavours are considered as the first small step towards practically transforming the industry in line with Schumpeter 1943 as well as academically changing a paradigm of thinking and scientific discovery in line with Kuhn 2012 so that the maritime industry is better informed and prepared and can greatly contribute to human lives.

Transformations Through

Blockchain Technology Sheikh Mohammad Idrees, Mariusz Nowostawski, 2022-03-07 The book serves as a connecting medium between various domains and Blockchain technology discussing and embracing how Blockchain technology is transforming all the major sectors of the society. The book pertains to students academics researchers professionals and policy makers working in the area of Blockchain technology and related fields.

Blockchain And New Economic Paradigms Philipp Schlander, 2019-05-27 Seminar paper from the year 2018 in the subject Computer Science Commercial Information Technology grade 1-3 University of Frankfurt/Main course P2P Finance language English abstract During the past years arising technologies and globalization have forced institutions and companies dealing within different challenges of digitalization. Systems and applications have become more complex and interconnected setting a difficult problem for the current legacy systems and applications. With the invention of Bitcoin in 2008 by a person or group of people known by pseudonym Satoshi Nakamoto a solution to the challenges of globalization and digitalization was introduced to the world. Not Bitcoin as a cryptocurrency by itself but the system Bitcoin is based on blockchain technique. This new technology promises to radically alter the existing paradigms of nearly all industries including IT finance government media medical energy and law as the most important ones. The topic of this seminar paper is to elaborate the revolutionary implications of blockchain on different sectors and to glance at possible future aspects of blockchain's potentials setting a new paradigm.

Blockchain Technology and Innovations in Business Processes

Srikanta Patnaik, Tao-Sheng Wang, Tao Shen, Sushanta Kumar Panigrahi, 2021-03-24 This edited book provides a platform to bring together researchers academia and industry collaborators to exchange their knowledge and work to develop better
