Armstrong, 1922 The Cricket Field, Or the History and the Science of Cricket (Classic Reprint) James Pycroft, 2016-09-02 Excerpt from *The Cricket Field or the History and the Science of Cricket* Common modesty should have suggested to such authors the example of gipsies who when they steal a horse at least pay the owner the compliment of cropping the mane and tail And in this no one will suspect us of making any allusion to Mr Felix Nve could no more boast a resemblance to his book than to his play indeed we both play left handed while we write like other folk i Great men have the same ideas though we wrote first and if the force of genius could no further go and our sails first took the wind who could help it And now we may run parallel without meeting except and we care not how often in the cricket field for our respective designs are now wholly different Mr Felix attempts but a segment we would comprehend the whole circle He addresses the initiated we bend to the meanest capacity steering how ever a middle course that the learner may not find us too deep nor

the learned too shallow The plain and palatable is provided for the young people though a few things more highly Seasoned appeared only a proper compliment to the old About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
